Pipeline Market

Playing an essential role in energy delivery, the pipeline industry is integral to improving our standard of life. With the federal government requiring stricter compliance and maintenance policies growing more stringent, the implantation and preservation of pipelines demand proficient preparation and precise work. Integrating expertise from Survey & Mapping, Environmental services, and Advanced Technologies, Fenstermaker offers clients a comprehensive perspective on every pipeline project. Poised to enter the project at any stage, from pre-construction surveying and permitting through development and inspection, Fenstermaker delivers innovative, lasting solutions through the right people using the best technologies.

Survey & Mapping

Preliminary/Civil Surveying

- Delineation
- Centerline Staking
- GIS Data Management
- Property/Boundary Surveys (Right-of-Way Acquisition)
- Profiling (Alignment)

DOT 192 Pipeline Survey

- Class Location Surveys
- Depth of Cover Surveys
- Environmental Compliance
- GIS Inventory

DOT 195 Pipeline Survey

- Navigable Waterways
- Depth of Cover Surveys
- HCA Support
- Environmental Compliance

GIS Inventory

- Route Surveys
- Class Surveys
- HCA Support

Subsidence Surveys

Containment Surveys for SPCC Plans

Environmental

Compliance Reporting

Permitting/Environmental Documentation

- Federal, State, and Local Authorizations
- Wetland Regulatory Compliance
- Site Characterizations
- Production Manuals

Natural Resources Management

- Delineation of Wetland Boundaries
- Threatened & Endangered Species Surveys
- Wetland Mitigation

Advanced Technologies

3D Laser Scanning/ Side Scan Sonar

- Petrochemical & Refineries
- Compressor Stations
- Valve Sites & Above Ground Facilities

Sonar for Waterway Pipe Inspections

The current challenge in the pipeline industry requires companies to comply with government regulations while efficiently implementing and preserving pipelines in a cost-effective manner. As a multi-disciplinary firm with over 60 years of experience in the energy industry, Fenstermaker offers the advantage of working with a single firm that integrates professional services in different divisions to deliver maximum results for each project.

– Steve LeBlanc, Pipeline Market Leader
