Who we are

ValueLabs is a product development, IT services and consulting company. Our services span consulting, software product life-cycle management, application development & maintenance, testing, engineering services, GIS services, Remote Infrastructure Management and Knowledge Process Outsourcing services. Over the 17 years of our existence we have developed many long-standing client relationships, demonstrated by the 50+% CAGR. Drawing on 3200+ employees, innovative solutions and flexible engagement models, we help our clients drive revenues and enhance brand value. With a presence across US, UK / Europe, Middle East, Asia Pacific and Australia, we serve over 150+ clients in multiple industries and geographies.

Our core competency is in building client dedicated 'Extended Teams'. These teams in due course, become seamless extensions of the client's teams, delivering clear competitive advantage beyond traditional cost efficiencies and scale.

Our vision and mission

Vision:

To help our clients unlock the potential of global delivery, by building world-class 'Extended Teams'.

Mission:

- To establish strategic partnerships with our clients, in the areas of Technology / Process Consulting, Software Product Development, QA / Testing, Product Engineering / GIS Services, Digital Marketing Services, Remote Infrastructure Management (RIM) and Knowledge Process Outsourcing (KPO) Services, while fulfilling our employees' aspirations.
- To create a business impact and become a competitive advantage for our clients by virtue of our world-class and cost effective service delivery.
- To create an extended family environment for our employees and propagate a fun culture while preserving our core value system.

How we drive value and innovation

We believe that our success is built on the success of our clients. We do whatever-it-takes to give our clients a sustained competitive edge.

Our deep technical and domain expertise helps us offer effective and efficient services. Our innovative tools and frameworks have helped accelerate time-to-market and reduce costs for our clients.

Our unique culture promotes excellence through trust, pride and team work. You will experience the unique culture that permeates across ValueLabs in each of your interactions with us.
