

Booth #331

2014 AACC Clinical Lab Expo
McCormick Place
Chicago, IL
July 29–31, 2014

Visit Radiometer at booth #331 and learn how to simplify and automate acute care testing in your hospital!

Radiometer provides technologically advanced solutions that simplify and automate all phases of acute care testing. Our solutions combine analyzers, samplers and IT to improve workflow, ensure sample integrity, increase operator safety and ensure data accuracy for blood gas and immunoassay testing. Stop by to find out how a Radiometer solution can make a difference at your hospital!

Don't miss our in-booth presentations!

Sy Albakri, PhD, HCLD/CC (ABB), CHS

Clinical and Scientific Affairs Manager, Radiometer America Inc.

Developing an Individualized Quality Control Plan (IQCP) for Blood Gas Testing

Dr. Albakri will review Radiometer's approach to developing an IQCP, which starts with an evaluation of your current workflow.

Tuesday, July 29, 2014 | 10:00–10:30 AM and 2:00–2:30 PM

Anne Skurup, MSc

Clinical and Scientific Affairs Manager—Blood Gas, Radiometer Medical A/S

Member of IFCC Task Force for Point-of-Care Testing | Editor-in-Chief of AcuteCareTesting.org

The Most Common Preanalytical Errors and How to Avoid Them

Up to 62% of testing errors occur in the preanalytical phase. Ms. Skurup will review strategies for the most common errors.

Wednesday, July 30, 2014 | 10:00–10:30 AM and 3:00–3:30 PM

New this year! ABL90 FLEX with wireless

Radiometer's ABL90 FLEX is now available with optional wireless capability, enhancing the point-of-care analyzer's utility, portability and flexibility for clinical applications. Fully operational on battery, the analyzer supports real-time uploads of patient data while being transported between various clinical departments in the hospital. Common encryption protocols ensure data security on the wireless network. Small and lightweight, the analyzer may be carried or moved on an optional rolling stand.

Stop by booth #331 and ask for a demo!

Poster sessions

B-165—Management

Re-engineering Critical Laboratory Testing for Timely Chemotherapeutic Management

Wednesday, July 30, 9:30 AM—5:00 PM

B-291—Point-of-Care Testing

The Effect of Maltose on the Radiometer 837 Blood Gas Analyzer

Wednesday, July 30, 9:30 AM—5:00 PM

SYCL workshop

Radiometer is sponsoring this year's SYCL workshop, Saturday, July 26, 2014, 1:00-5:30 PM, at the Hyatt Regency, Ballroom A. The program focuses on demonstrating the value of lab medicine. A mixer follows at 5:30 PM.

Not attending the conference?

Local to Chicago but not attending the conference? Ask your Radiometer rep about an expo-only pass to the exhibits.
