

## EXPERIENCE 3DEEP®

EndyMed is a world leader in non-invasive, medical aesthetic treatment solutions for facial and body skin improvement. Its FDA approved 3DEEP® RF technology delivers superior safety and effectiveness for professional wrinkle reduction, skin tightening, body contouring, Fractional Skin Resurfacing and Fractional RF Microneedle Skin Remodeling.

With EndyMed, you can offer your patients an exceptional all-round experience:

- Pain-free, convenient treatment
- Immediately visible results
- Dramatic, long-lasting improvements in skin tone and texture

### 3DEEP TECHNOLOGY

#### IT'S ABOUT CONTROLLED ENERGY:

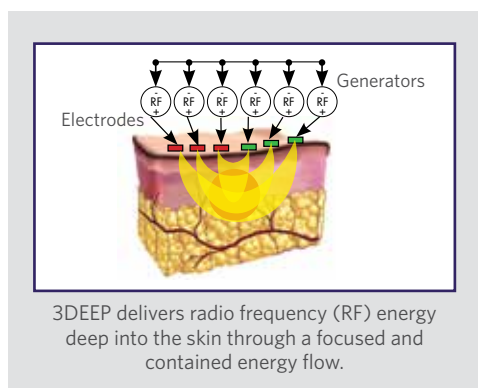

EndyMed's 3DEEP technology is a new, sophisticated multi-source and phase-controlled RF energy deliver system, which uniquely directs focused and controlled heat into the deep layers of the skin. With minimal heat on the skin's surface, the need for active cooling is eliminated and the skin is better protected.

#### IT'S ABOUT COLLAGEN

- 3DEEP's controlled penetration of heat tightens and firms the skin by stimulating the body's natural collagen renewal process, providing better, more effective results.

#### IT'S ABOUT COMFORT

- EndyMed treatments are safe, efficient and pain-free—delivering visible short and long term results with minimal to zero downtime.

## EXPAND YOUR TREATMENTS, COST EFFECTIVELY

EndyMed devices enable multiple types of treatments. With a choice of handpieces, you can cost-effectively offer a wide variety of customized treatments.

### EndyMed PRO

#### POWERED BY 3DEEP TECHNOLOGY

The EndyMed PRO offers a superior high-end aesthetic solution for wrinkle reduction, skin tightening, body contouring and Fractional Skin Resurfacing, all with one easy-to-use, versatile device. Often referred to as a "lunchtime" procedure, EndyMed PRO treatments are effective, painless, and require no downtime. Clients can return to work and other activities immediately after their treatment.

EndyMed PRO is a multi-application platform, upgradeable and available with multiple handpieces for different treatment applications and areas.

### PURE +

#### POWERED BY 3DEEP TECHNOLOGY

The EndyMed PURE+ is a portable desktop device for wrinkle reduction, skin tightening, body contouring, and Fractional Skin Resurfacing, all on one easy-to-use, compact device. It offers complete flexibility with four interchangeable 3DEEP treatment handpieces for different treatment applications and areas.

## 3DEEP HANDPIECES

#### SHAPER 3D HANDPIECE

For effective body tightening, shaping and cellulite treatments.

#### LARGE HANDPIECE:

For fast and effective treatment of larger body areas.

#### SMALL HANDPIECE:

For treatment of wrinkles and lax skin on the face, neck and upper body.

#### INTENSIF HANDPIECE:

Micro Needle Applicator -

A breakthrough solution to reduce scarring, hyperpigmentation and stretch marks and improve skin texture and elasticity. Available for the EndyMed PRO only.

#### FRACTIONAL SKIN RESURFACING HANDPIECE:

Specially designed for fractional skin resurfacing and treatment of skin roughness, hyperpigmentation, and wrinkles and scars on both facial and body areas.

#### iFINE HANDPIECE:

For treatment of wrinkles and lax skin on delicate skin tissue around the eyes and mouth.

## WHY ENDYMED?

#### Ideal for your patients

- Noticeable immediate improvement, and long-term visible results
- Optimal safety with minimal or no discomfort, and no side effects
- Fast walk-in/walk-out, with a pleasant treatment experience

#### Perfect for your practice

- Suitable for all skin types
- Customized treatment plans with preset default parameters
- Rapid ROI and profitability
  - No consumables for Large, Small and iFine Handpieces
  - Low-priced consumables for Intensif and FSR Handpieces.
- Smooth growth path - One device for multiple applications

## WHAT THE EXPERTS SAY

*"The EndyMed PRO 3DEEP technology uses a new sophisticated way to control RF energy in the tissue. Using the attraction and repulsion forces of multiple RF sources working in tandem it forces energy to the depth of the dermis with minimal heat on the surface. My clinical experience with the EndyMed PRO shows consistent skin tightening especially in the lower face and neck areas with 100% satisfied patients."*

**Prof. Daniel Cassuto, Professor of Plastic and Reconstructive Surgery at the University of Catania and a private practice in Milan, Italy**
