### SEED TO SONG

At Bedell Guitars, we believe that extraordinary acoustic guitars can be crafted from the world's most precious tonewoods in complete harmony with sustaining our forests and honoring the communities and economies that thrive among them.

The Bedell seed-to-song journey reveals the story behind each tree used in our guitars whenever possible: where and when it germinated, the length of its life, and how it died and was salvaged, or was individually harvested. We are committed to complete transparency, from seed to song. For more information about Bedell Guitars: visit, [bedellguitars.com](http://bedellguitars.com).
