Trapp Corp. Achieves Premier Certification from Cisco in the United States

Scottsdale, Arizona – July 28, 2014 – Trapp Corp. announced today it has achieved Premier Certification from Cisco®. To earn Premier Certification, Trapp Corp. had to meet standards for networking competency, service, support and customer satisfaction set forth by Cisco.

“Obtaining our Premier Certification from Cisco is not only more cost effective for Trapp, but it enables us to pass those cost savings along to our client base,” says Katie Yokose, Vendor Manager for Trapp Corp. “We’re proud to extend our knowledge to our user base and continue to build custom solutions for SMBs and SMEs alike. This really adds a new element to our already diverse hardware portfolio.”

As a Cisco Premier Certified Partner Trapp Corp. demonstrates a range of technical expertise. To achieve Cisco Premier Certification Trapp Corp. was required to achieve the Cisco Express Foundation Specialization. This specialization includes tests on technical competency in the integration of basic routing and switching, wireless LANs, and security technologies. In addition, Trapp Corp. was required to integrate a base level of Cisco Lifecycle Services into their offerings and demonstrate measurably high levels of customer satisfaction based on independently audited customer satisfaction surveys.

The Cisco Resale Channel Program provides partners with the training required to build sales, technical and Cisco Lifecycle Services skills. Cisco resale partner certifications—Gold, Silver, Premier and Select—represent an increasing breadth of skills across key technologies and a partner’s ability to deliver integrated networking

solutions. Cisco resale partner specializations—Master, Advanced and Express—reflect an increasing depth of sales, technical and service expertise in particular technologies.

About Trapp Corp.

The Trapp Corp. companies, Trapp Online, Trapp Connect, and Trapp Tech combine the very best cloud, Internet, IT managed services, and IT consulting to provide a true all-in-one IT solution for businesses who seek to cut IT costs and leverage technology to grow revenues. Trapp Corp. services are designed to appeal to the growing number of medium-sized businesses looking to outsource more IT infrastructure and application management services to help reduce total cost of ownership and free up internal resources, as well as those companies seeking the skills and support to quickly complete complex IT projects.
