New Jersey Home Remodeling Contractor Somerville Aluminum named number one dealer of Eclipse Shading Products in NJ and is a Top 20 Dealer of Eclipse Products nationwide.

Branchburg, NJ- July 2014- Somerville Aluminum is proud to be named the #1 dealer of Eclipse Shading Products in NJ. As one of the areas largest home remodelers, Somerville Aluminum has installed hundreds of motorized retractable deck and patio awnings by Eclipse Shading Systems® throughout the state.

"Somerville Aluminum has been representing Eclipse Shading Products for over a decade, " states Larry Bedosky of Eclipse. "They are the type of dealer who thrives on good customer service and delivering value to its customers. It is why Somerville Aluminum continues to grow with us year after year."

Retractable awnings have grown in popularity in recent years, as people's homes have expanded outdoors to include gathering areas for entertaining with family and friends. A retractable awning can prevent up to 98% of the sun's harmful UV rays, allowing homeowners to get more use out of their patio or deck by providing much needed comfort and shade. There are hundreds of designer fabrics to choose from with hardware options to match any décor. Many automatic features can be added to accompany a retractable awning including lighting packages, solar beam heating and even wind and sun sensors that will automatically open and close the awning when detecting wind or sun.

"We partner with manufacturers who share the same basic philosophy as we do- offer the highest quality products with exceptional service," states Gary Shiman, co-owner of Somerville Aluminum. "Every Eclipse awning is custom made with the finest and most durable materials, coupled with our professional and knowledgeable installation to provide NJ homeowners with long-lasting comfort and value."
