The LNG Specialists
1341 Ashton Road, Suite A
Hanover, MD 21076

About CH-IV International

CH-IV International was established in 1991 as CH-IV Corporation. The company provides consulting services to LNG asset developers, regulators, facility owners, operators and lenders to ensure assets are designed, developed, constructed and operated safely and in accordance with codes, regulations and the given project's technical and commercial specifications.

CH-IV has supplied consulting and engineering services throughout the world, including North America, Asia, the Pacific Rim, Europe and South America. The company has recent experience in USA, Canada, Indonesia, Philippines, Papua New Guinea, Guam, Kenya and many areas in the Caribbean.

About Clough Limited

Clough works with some of the world's largest energy and resources companies to engineer, construct, commission and maintain a comprehensive range of infrastructure for energy, chemical, mining and mineral projects. The company's full project lifecycle delivery model reduces risk and optimizes safety, productivity and cost across every phase of a project.

Established in 1919, Clough's services are underpinned by a dedication to project delivery excellence that has spanned over 90 years. Today the company employs a workforce of nearly 4000 people from operating centers across Australia, Papua New Guinea, UK and Asia.

Backed by an experienced leadership team, talented people and sophisticated project management systems, Clough is committed to safety, sustainable development and the wellbeing of the people, communities and environments in which it operates.
