

iPatientCare Celebrates National Health IT Week September 15-19, 2014

iPatientCare, Inc. as a Proud Partner in the Advancement of Health Information Technology Healthcare will be Participating in the 9th Annual National Health IT Week, September 15-19, 2014.

iPatientCare, Inc., a pioneer in mHealth and cloud-based ambulatory EHR and integrated Practice Management solutions announced its participation in the 9th Annual National Health IT Week as a proud partner, September 15-19, 2014.

The 9th Annual National Health IT Week is being held on September 15-19, 2014. Join us for this collaborative forum where public and private healthcare constituents work in partnership to educate industry and policy stakeholders on the value of health IT for the U.S. healthcare system. With Meaningful Use now providing the way forward, there is no better time for the health IT community to come together under one umbrella to raise national awareness!

National Health IT Week is the premier event offering all healthcare stakeholders an opportunity to unite under one banner, expressing the benefits that health information technology (IT) brings to U.S. healthcare. "One Voice, One Vision." "Our participation in National Health IT Week highlights our organization's commitment to ensure health information technology is integrated, interactive, interoperable, and intelligent to provide the best patient outcomes, said, Shripal Shah, Senior Technology officer, iPatientCare." "By working together we can leverage the technology to promote for the betterment of our healthcare system", he further commented.

"We are pleased to join technology professionals, healthcare providers and patients in celebrating 9th Annual National Health IT Week," said Udayan Mandavia, CEO/President, iPatientCare. Healthcare IT is an enabler of improved population health, more efficient care coordination, and effective patient engagement. iPatientCare partners with healthcare providers to help them leverage health IT to advance patient care and improve patient outcomes."

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company is known for its pioneering contribution to mHealth and Cloud based unified product suite that include Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and mobile point-of-care solutions that serve the ambulatory, acute/sub acute, emergency and home health market segments.

iPatientCare EHR 2014 (2.0) has received 2014 Edition Ambulatory Complete EHR certification by ICSA Labs, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS).

Full certification details can be found at [ONC Certified Health IT Product List](#).

The ONC 2014 Edition criteria support both Stage 1 and 2 Meaningful Use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).

The company has won numerous awards for its EHR technology and is recognized as an innovator in the field, being a pioneer to offer an EHR technology on a handheld device, an innovative First Responder technology to the US Army for its Theatre Medical Information System, the first to offer a Cloud based EHR product. iPatientCare is recognized as one of the best EHR and Integrated PM System for small and medium sized physicians' offices; has been awarded most number of industry Awards; and has been recognized as a preferred/MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and academies.
