## **Graduated Compression – Why your legs will love it?**

The upward motion of blood flow reduces swelling in feet, ankles and legs. Graduated compression is greatest at the ankle and gradually decreasing up the leg to improve blood flow in the lower legs. Wear them daily or when traveling to improve circulation and overall leg health.

Improving circulation helps: revitalize legs, prevent varicose and spider veins and keeps energy in your step all day long.

## **Also Available at Nordstrom.com – SIGVARIS SPORTS**

SIGVARIS SPORTS PERFORMANCE SLEEVES are also now available at Nordstrom.com. Recommended by athletic trainers and sports physicians worldwide, SIGVARIS medical-grade graduated compression helps improve circulation, reduce vibrations on active muscles and flush out lactic acid for less soreness post workout. The PERFORMANCE SLEEVE is available in black, purple and pink.
