SIGVARIS Spices Things Up for Fall with the Launch of Mulberry in the SOFT OPAQUE Hosiery Collection

SIGVARIS SOFT OPAQUE is now available in a new, limited edition shade for fall.

PEACHTREE CITY, GA – This fall, SIGVARIS is excited to offer one of the season’s hottest, on-trend shades in the SOFT OPAQUE hosiery collection. Mulberry is the perfect way to makeover any wardrobe.

SIGVARIS strives to give women fashion-forward hosiery options designed to match their lifestyle. SOFT OPAQUE looks and feels like designer fashion tights and helps keep legs healthy. It features graduated compression, which helps improve circulation and aids in the prevention of varicose and spider veins.

The new limited edition color is available in the 15-20mmHg and 20-30mmHg compression levels in calf length, thigh-highs and pantyhose. It’s a popular compression option among women who have the early stages of chronic venous insufficiency, a problem that affects one-third of all women.

In addition to Mulberry, the entire popular collection is available in Midnight Blue, Espresso, Graphite, Black and Nude.

SIGVARIS MEDICAL compression hosiery promotes leg health and is universally recommended for both the surgical and non-surgical treatment of venous disorders. In addition to featuring the softness of microfiber, SOFT OPAQUE is also extremely durable. Its breathable construction is perfect for year-round wear.

For more information about SOFT OPAQUE or for tips about how to keep your legs healthy, visit www.sigvarisusa.com.

About SIGVARIS

SIGVARIS® North America is part of an internationally active medical device group headquartered in Winterthur, Switzerland that focuses on the development, production and distribution of medical compression garments, including hosiery and socks.
