

# ResCube™ The No.1 Completely Mobile Medical Alert System

Active and on-the-go? You'll love our ResCube mobile medical alert system!

ResCube goes where you go. Whether you're traveling cross country or running errands around town, ResCube provides you comfort and peace of mind that you'll receive the help you need in an emergency. As with all One Call Alert systems, the push of a button connects you to a trained operator 24 hours a day, 365 days a year. And with a custom emergency response plan, you choose who is contacted.

## Your ResCube™

**HELP Button**  
Press and hold for 2 seconds to reach emergency care center.

**Microphone**

**Status Light**

**Speaker**

## Easy to Use

- Fully mobile medical alert with one-button operation
- Talk directly into the pendant—there's no need for a base station
- Smallest and lightest unit on the market—the size of a wireless key fob and as light as one AA battery
- Waterproof, so you can wear it in the shower

## Reliable

- Battery lasts up to two months
- Diagnostic tests conducted daily
- Low battery light flashes and an alert email is sent
- In an emergency, sensors on nearby cell phone towers can wirelessly track the location
- Emergency back-up – in areas with no T-Mobile coverage, ResCube will contact local 911 services
