

CODE RED USES EZE CASTLE INTEGRATION TO OFFER PRIVATE CLOUD SERVICES

Cloud-based RMS offerings include research and contact management, data aggregation, due diligence, and compliance

Boston, MA, August 25, 2014 – Code Red, Inc., the leading provider of investment research technology, today announced it has chosen Eze Castle Integration’s private cloud application hosting platform to deliver cloud services to clients. Code Red RMS™ users now have direct access to their system through the Eze Private Cloud, and are promised the cloud’s in-demand security and monitoring features, among others.

Code Red will use the Eze Private Cloud’s capacity for application hosting to provide direct access to its RMS via an enterprise-grade, secure environment. The configurable RMS works in tandem with the simplicity and flexibility of the Eze Private Cloud to provide unrivaled security and accessibility to proprietary research and data, unlocking superior collaboration and investment efficiency.

“Using Eze Castle Integration’s private cloud services gives our clients the ultimate confidence in their data’s protection. Knowing the cloud bears premier security and constant monitoring lets them focus on crucial investment processes and decisions,” said Code Red CEO Tim Gavin. “In an industry of escalating cloud adoption, our users do not have to forfeit their custom RMS to benefit from the amenities of the Eze Private Cloud – now they can profit from both tools in a single, cost-effective platform.”

Eze Castle Integration’s award-winning private cloud is a robust infrastructure that provides users a secure, scalable, and flexible environment, able to host apps and an array of customizable service features necessary for operational preeminence. Among the features offered are a global enterprise infrastructure, connectivity, around-the-clock monitoring and help desk services, and disaster recovery for data.

“The Eze Private Cloud combines a high-performance global infrastructure with a broadly connected financial network that delivers the performance, security, and connectivity necessary to power applications like the Code Red RMS,” said Mark Coriaty, senior vice president at Eze Castle Integration. “By running the Code Red RMS on our proven platform, clients can improve the efficiency and effectiveness of their operations.”

ABOUT CODE RED, INC.

Code Red, a global provider of investment research technology, enables firms to efficiently organize methods of research and contact management, data aggregation, due diligence, and compliance into an enterprise workspace that models a complete and repeatable investment process around proprietary workflows. The Code Red RMS™ is implemented at asset management firms, consulting firms, endowments, foundations, fund of funds, hedge funds, insurance companies, mutual funds, pension funds, private equity firms, and sovereign wealth funds. Code Red was established in 2004 in Boston, MA and has corporate offices in Hong Kong, London, and New York. For more information, contact Jaime Bean at (212) 867 6364 or visit www.coderedinc.com.
