

Infor Xtreme™ Support

Real people. Real answers. Real support.

A photograph of three people in an office setting. A man in a light blue shirt and glasses stands behind a woman sitting at a desk, pointing at her computer monitor. Another man in a light-colored shirt and glasses leans over the woman's shoulder, also looking at the screen. The woman is smiling and looking at the monitor. The background shows office cubicles and shelves.

“Technical expertise and timely resolution are just two of the factors that keep us extremely satisfied with Infor Xtreme Support. The Infor analysts do an excellent job in handling our issues when they arise.”

Meet the Xtreme Team

Real people

We would never trust an automated robot to solve your problems. Whether your question is big or small, we're here to support you every step of the way.

Real answers

We don't believe in canned responses or "one-size-fits-all" support. When you have a question, we're listening. And when we have an answer, we make it specific to the issue you're facing right now.

Real support

We joined the Xtreme Team with backgrounds in engineering, development, and other technical fields. Some of us even helped develop the apps we support, so we understand them inside and out. We are all experts and we are all passionate about providing you with exceptional support.
