

# The Origami-based World of Paperama by FDG Entertainment

## Enabled for Intel® Atom™ Tablets for Android\*

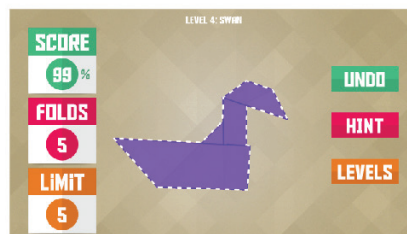

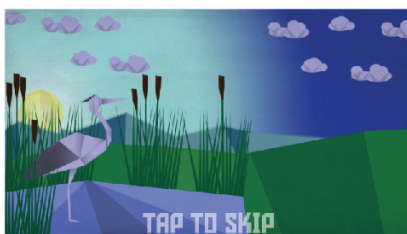

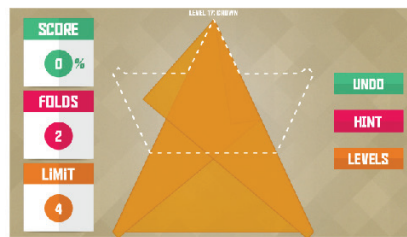

Game publisher FDG Entertainment has successfully collaborated with Intel® to optimize its popular Zen paper-folding game for Intel® Atom™ tablets for Android\*. The app can now deliver its precision folding puzzle trials to an expanded playing base of mobile device users.

Paperama leads players into an Origami world where they are challenged with folding paper sheets into specified figures, without using too many folds. With hundreds of levels, players can choose to experience a more laid-back feel, or face a greater challenge, truly testing their patience. Players can depend on the Smart Hint System option to provide a bit of help as needed. Featuring an advanced 3D folding effect and more than 96 puzzles, players can enjoy hours of Origami escape. An accompanying soundtrack completes the gameplay environment.

Now players can enjoy the Origami world of the popular Paparama game, with the latest optimization for Intel Atom tablets for Android\*. The powerful, versatile platform enhances the setting, as well as the challenges of this unique app. With a broad palette of options and the mobility to play anywhere, the Paparama experience on Android\* tablets provides hours of entertainment for players of all ages.

## Features of Paperama for Intel Atom Tablets for Android\*

- Players can be challenged by over 96 different puzzles
- Advanced 3D folding visual effect brings puzzles to life
- Crisp, realistic graphics
- A Smart Hint System is available to assist gamers during play
- Audio soundtrack completes feel of game

Paperama is available for immediate download at the Google Play Store:
