

Stick Tennis App by Stick Sports is a Virtual Smash

Now Available for Intel® Atom™ Tablets for Android*

The worldwide following of the Stick Tennis application is no wonder; the game delivers the magnetic intensity of a real tennis tournament for both competitors and spectators. Designed to simulate the real physics of gravity and movement, the game rewards nimble responses and individual technique.

Ranking #1 in 126 countries for sport gaming apps, Stick Tennis introduces a level of interactivity and competition that makes the challenge all that more compelling. Both avid gamers and lifelong tennis players are uniquely drawn to the high-energy thrill of the virtual matches.

Users can choose from famous avatars with signature court styles, they can compete in a variety of tournaments or just practice their skills in Casual Sets mode. The Daily Challenge presents a new, high-profile match every day of the week based on real world matches and gamers can win trophies. Syncing up with real-life tennis tournaments, the game gives players the enhanced experience of professional competition. Players are ranked against each other on frequently updated leaderboards. The Friends Challenge allows gamers to play against the same opponent to see whose performance is superior.

Now Android* Users Can Power Up the Exhilarating Stick Tennis Excitement

Lightweight, responsive Android* tablets let the addictive competition travel anywhere. High-speed Internet enables users compare their stats and the sharp, high-resolution screen enhances the realistic gaming experience even more.
