
New Senior Living Facility to be Built in Allen, TX

(Richardson, Texas) August 28, 2014 – Mesquite-based Christian Care Centers recently selected Adolfson & Peterson to build a new senior living facility in Allen, TX.

Designed by REES Architects, the 72,000 square-foot, two-story senior center will offer 32 assisted living units and 36 memory care units. The new senior center will also include 22 independent living cottages, to be completed under separate contract.

Adolfson & Peterson has been working in a preconstruction capacity with Christian Care Centers and Rees architects since November 2013. The project is slated to break ground in late September 2014, with completion scheduled for August 2015.

Once construction is completed, Christian Care Centers will operate the facility.

“Christian Care is excited to be expanding our Senior Living Communities into the city of Allen. This state-of-the-art, multi-level campus will provide excellent quality of care and innovative services building on the rich traditions of our 67 year organizational history.”

“We are delighted to partner with Christian Care Centers on this important project” said Corbett Nichter, Senior Vice President with Adolfson & Peterson Construction. “We look forward to building a landmark senior living center with excellent amenities that extends the Christian Care Mission to Allen and the surrounding communities.”

The project site is located on property adjoining Greenville Oaks Church of Christ, near Highway 5 and Bethany in Allen, TX.

About Christian Care Centers

Christian Care Centers, Inc. (CCC) is a not-for-profit, faith-based organization that operates multiple Senior Living campuses in the Dallas / Fort Worth Metroplex providing quality housing and health care services for seniors in North Texas. CCC focuses on serving its residents in a caring environment that integrates three main components of serving the whole person – mind, body and soul.
