Compliance Discovery Solutions Moves Up to 6th Largest U.S. Legal Staffing Firms

Staffing Industry Analysts' Annual Ranking Recognizes Compliance's Growth

Pittsburgh, PA, September 3, 2014—Compliance Discovery Solutions, a discovery solutions company and pioneer in managed review, has been recognized as the sixth largest legal staffing firm in the United States, according to global contingent work advisor Staffing Industry Analysts. Compliance moved one spot higher from the seventh spot in 2013's annual ranking of largest legal firms.

Over the past year, Compliance has steadily grown its client and consultant base while also making significant investments in technology and infrastructure. The company recently opened dedicated managed review facilities in Miami, FL, and Philadelphia, PA, which also houses its SSAE-16, Tier IV secure data center.

"Our clients demand innovation and speed at every phase of the discovery process," said Marc Zamsky, COO, "and Compliance is rising to the occasion." He added, "We're thrilled to be moving higher in the list of top staffing firms, thanks to the ongoing support of our clients and dedication of our employees."

In addition, last year Compliance became a Relativity Premium Hosting Partner to deliver kCura's fully featured, web-based platform. The company also selected Mindseye's powerful eDiscovery platform, TunnelVision, to process client data.

###

About Compliance

Compliance (www.complianceds.com) delivers **Success on Demand** through an innovative suite of discovery solutions. A pioneer in managed review, Compliance helps clients manage complex legal matters with greater flexibility, scalability and efficiency. The company integrates eDiscovery technology, expert project management, proven workflows and legal staffing, all through a single source.
