

# **2014-2015 Education Subsidy: Supporting Educators Worldwide.**

**The Future of Mobile Forensics is Growing.  
Education is the Key to its Success.**

**Please see the enclosed Education Subsidy for schools in need  
of Mobile Forensics Software inside the classroom.**

**(\*All schools may apply. Applications are complimentary with no obligation.)**

## 2014-2015 Education Subsidy

### Subsidy Background:

Susteen specializes in Mobile Forensic Software. Our software, Secure View, is used by the FBI, California Department of Justice and various Law Enforcement Agencies throughout the state. We know the future of mobile forensic is growing. Education holds the potential of this industry. Instructors should be able to teach students about this field so that they have the knowledge to succeed in the workforce and protect our communities.

### Who can participate in the program?:

Any qualifying technical campus, private or public colleges/universities providing instruction in digital forensics and/or cell phone forensics can participate in this mobile forensics program.

### Program Breakdown:

- Susteen, the developers of Secure View will provide the use of **25 server base licenses**.
- Susteen will maintain the licenses on our server and can provide a **monthly user report**.
- Students will be asked to log their school and their own personal information so that we can keep track of who is using the program.
- Susteen will change passwords every semester or quarter for security purposes.
- Education institutions will have permission to load software in lab computers.
- Education instructors will be able to allow students to download and use software license on their own devices for the semester or quarter.

### Description of the Product:

**Secure View:** The “go to” software for the cell phone forensic investigator. Secure View supports thousands of featured phones. Students can learn case file creation, analyzing and bookmarking in one complete package. Secure View is the only mobile forensic tool that provides 3 specific processes for examination: acquire, analyze and report.

### Curriculum and Instruction:

The instructor of the educational course will be provided an example of a curriculum from Susteen’s online training class. The education institution will have permission for that instructor to use the curriculum provided by Susteen to structure or supplement a comprehensive lesson.

Susteen will offer product training to instructors of the educational program or course. The training will be delivered via a web meeting interface. It will cover acquisition, analysis, and reporting of cell phone data with Secure View. A participant certification will be given to attendees who complete the class.

**Return to: Susteen C/O Education Subsidy Department 8001 Irvine Center Dr. Ste. 1500 Irvine, Ca 92618**

Or via Email to: [edsubsidy@susteen.com](mailto:edsubsidy@susteen.com)      [www.secureview.us](http://www.secureview.us)

**Budget:**

The Susteen Education Subsidy understands that funds have become harder to receive. Colleges do not have the budget needed to purchase an all-inclusive mobile forensic software suite. This Subsidy drastically cuts down the cost of acquiring Secure View Mobile Forensic Software currently in use by the USSS, FBI, ICE and various other Law Enforcement agencies.

Item	MSRP	Subsidy Pays	Department Cost
Secure View Mobile Forensic Software: 25 1 yr. Licenses with training, maintenance, and support	\$85,000	85% of cost	\$7,500

**Work Plan/Timeline:**

- All applications for the Susteen Education Subsidy must be received prior to 12/31/14.
- Education Subsidy is issued on a first come first serve basis.

**Application may be returned via email or mail: Approval process takes less than a week.**
