Our Story

SeaTurtle Sports began with a simple goal in mind:

***get family and friends
together and away from
the distractions of our
busy world.***

We wanted to rekindle the joy we experienced gathering together on lazy afternoons and beach vacations along the Gulf Coast in retreats like Perdido Key and Grayton Beach, Florida.

It was on these beaches that inspiration struck for our first game, Beach Bocce Ball. With Beach Bocce's amazing reception and passionate testimonials, we were inspired to create other easy-to-play, high quality games like Yazoo and Turtle Toss.

SeaTurtle Sports will always be about designing games and lifestyle products that bring people together to share good times and great memories.

Beach Bocce Ball

Our top-quality Beach Bocce Ball set is designed for fun and durability on sand and grass alike. These bright balls in beach inspired colors are made from durable rust-, crack- and shatter-resistant synthetic polymers, injection-molded for a lifetime of fun. They deliver the best of bocce in the portable petanque size (the French version of bocce), 74 mm. or 3 in. diameter so kids and adults of any shape, size or skill can play.

- Eight (8) balls in bright beach colors, made of tough synthetic polymers and injection-molded. Durable and shock resistant—won't crack, chip or rust. Balls are petanque size (the French version of bocce), which is 74 mm. or 3 in. diameter.
- One (1) Jack (target ball) made from the same impact-resistant material.
- One (1) string for measuring those ball placements too close to call with the naked eye.
- Laminated weatherproof rules.
- One (1) durable canvas carrying case designed with the great outdoors in mind.

Beach Bocce Ball Mini

Sometimes four players can be a crowd. And two players can be perfect. Especially if the two of you have an outstanding beef that can only be settled by a game of bocce. That's why we created Beach Bocce Ball Mini.

Half the players, half the weight, same high-quality Beach Bocce balls when you want a lighter load on the go. The easy-to-carry bag has everything our full-size game does, with four balls instead of eight.

- Four (4) balls in bright beach colors, made of tough synthetic polymers and injection-molded. Durable and shock resistant – won't crack, chip or rust. Balls are petanque size (the French version of bocce) – which is 74 mm or 3 in. diameter.
- One (1) Jack (target ball) made from the same impact-resistant material.
- One (1) string for measuring those ball placements too close to call with the naked eye.
- Laminated weatherproof rules.
- One (1) durable carrying bag designed for easy portability.

Yazoo

Yazoo is played by throwing a disc back and forth while trying to knock off a can that has been placed on top of a pole. Our game comes with quick assembly, is portable and has a custom carrying case. Yazoo's one-piece telescopic poles provide instant flexibility to play at any height – no re-connecting or searching for pole parts – and compress to 26 inches. Two or four players (two teams) can play at a time. Two players from the same team play defense behind their pole trying to catch the disc and the can before hitting the ground. If either touch the ground, points are awarded to the throwing team. Our cans even double as insulated drink coolers when not used as targets!

- Two (2) non-breakable, soft, polyurethane can-shaped targets that double as drink coolers.
- Two (2) telescoping aluminum poles for use on sand or grass.
- 175 gram competition quality disc.
- Laminated weatherproof rules.
- Custom carry bag with adjustable strap.

Turtle Toss

It's not always easy to stand out in a crowd, but we think we've come up with the ultimate bag toss game, a lightweight, portable set that can travel anywhere. Classic cornhole boards are four feet long and heavy. And most bag toss games have multiple parts to assemble and very easy to lose.

Turtle Toss challenges players to score in three different size holes, with the highest points awarded to tosses into the smallest hole. And we added a new dimension to the game: barrel/can shaped bags that expand the range of possible shots. Finally, we took a cue from our popular Beach Bocce Ball game and designed our bags in four colors for maximum flexibility. The only set you will find designed with that much attention to fun! We even added a mesh, vented bag bottom to filter the sand, dirt or whatever else might get trapped inside.

- Lightweight, crafted with durable aluminum tubing and PVC-backed polyester.
- One collapsible target board for maximum portability.
- Eight (8) barrel-shaped bean bags (2 blue, 2 purple, 2 yellow and 2 orange).
- Laminated weatherproof rules.
- Custom carry bag with adjustable strap and vented bottom.

Price: \$68.00
