7Summits Ranks No. 639 on the 2014 Inc. 500|5000 List
Social intranet and online community strategy drives significant growth

MILWAUKEE (September 9, 2014) – 7Summits, a social business solutions provider, ranked number 639 in Inc. magazine’s 2014 Inc. 500|5000, an exclusive ranking of the United States’ fastest-growing privately held companies. 7Summits received this ranking based on reported growth of 728% over the last three years. The agency also ranked #6 in the 2014 Inc. 500|5000 Honors for Top Wisconsin Companies.

The Inc. 500|5000 list represents the most comprehensive look at the most important segment of the economy – America’s independent entrepreneurs. The 2014 Inc. 5000 is the most competitive crop in the list’s history, with the average company on the list achieving three-year growth of 516%. The Inc. 5000’s aggregate revenue is \$211 billion, generating 505,000 jobs over the past three years.

“7Summits’ ranking of 639 on the Inc. 5000 list is a testament to our team’s ability to deliver real value for our clients through strong strategy and effective solution development,” said Paul Stillmank, CEO of 7Summits. “Social business technology is becoming increasingly relevant, and companies recognize the need to work with an experienced partner to effectively integrate these platforms into their daily workflows.”

7Summits nearly tripled its workforce since 2010, adding staff members with expertise in Salesforce community development, social intranet technology and online community strategy. This focused approach has helped 7Summits launch active, dynamic platforms that allow Fortune 1000 organizations to communicate more effectively. The company’s solutions enable employees to create, compete and innovate in open discussions rather than isolated back-office systems.

“We are proud to be recognized for our operational success as we continue to innovate and expand our organization,” said Stillmank. “7Summits’ growth is fueled by the success of our clients, and we are committed to driving tangible results through social business technology and transformative online community strategy.”

As part of a complete social business strategy, 7Summits offers a social intranet solution that takes a more pragmatic approach to driving business results through employee collaboration. Their team challenges traditional modes of employee communication by leveraging social technologies to create industry-specific social intranet solutions – a much more powerful way to engage employees to deliver overall business results. 7Summits has a strong track record of using technology in purposeful ways that drive business results, and has developed social intranets that help companies connect employees to the information, business tools and colleagues that they need to be most effective at work.
