## Enabled by Intel® Atom™ Tablets for Android\*

The developers at Zomato have made their world famous food guide application optimized for Intel® Atom™ Processor-based tablets for Android\*. This powerful app makes the rich world of local food available to a larger mobile device audience. With information on over 23 million monthly users, the Zomato app provides users with access to an abundance of flavorful experience.

Modern technology has revolutionized the way we eat. While food is a basic human need it is also a source of enrichment and exchange. Everywhere in the world, people are communicating about ancient ingredients or sharing successful ideas across cultures. Now, with the advent of mobile devices, anyone can discover the culinary treasures of their current location. Whether in their hometown or traveling in an entirely new place, the Zomato app allows users to explore and share wonderful new dining experiences all over the globe.

# Zomato Makes Dining Easy for Denizens with Android\* Tablets

Foodies love the portability and versatility of their Android\* tablets when it comes to seeking out new culinary delights. The Zomato app allows users to search according to their current location, filter for price, search for a type of cuisine and read reviews. The lightweight design of tablets lets users make informed choices wherever they are.

## Easy Search

Finding a new and exciting place to eat and drink is convenient with the extensive search function. Filters narrow results by location, price, type of cuisine and proper name so trying new restaurants, cafés and bars is effortless and fun. Users can also determine their options with Dine-in, Delivery, Nightlife and Take-away filters.

## Cornucopian Details

Photos, updated menus, reviews and maps help adventurous diners decide exactly what they want to eat. Business phone numbers, directions and featured foods or “collections” all ensure users get the dining experience they are seeking.

## Social Dining

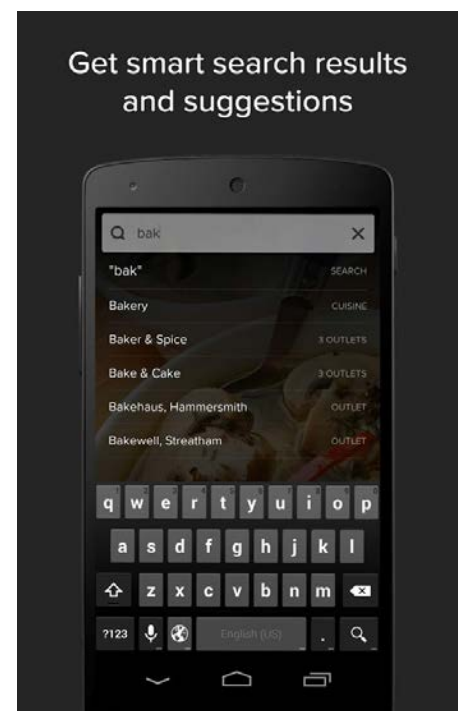

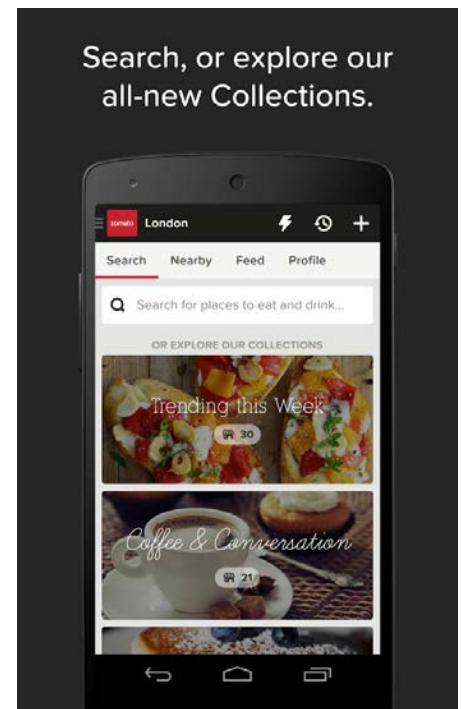

Good food is so much more pleasurable when diners can share the experience with friends and family. Reviewing and comparing dining information enhances the delicious discovery of a new dish or an obscure dive. Restaurant goers can form networks with others who have similar tastes, share pictures and build wish lists for future meals. A handy list feature helps gourmands remember their favorite spots. Reading others’ reviews and ranking adds a unique and personalized element to trying new places.

## Global Gastronomy

With extensive information and new locations added and updated all the time, the eating adventure continues at home and abroad. Over 23 million monthly users regularly refer the Zomato app to venture into new, savory territory.

## Mobility and Versatility

The sleek portable design of the latest Android\* tablets lets hungry users find the right destination easily from wherever they are. Scrumptious food photos and updated menus are clear and detailed on high-resolution screens so users can see exactly what their options are.

## Zomato on Tablets for Android\* Powered by Intel®

Lightweight, responsive Android\* tablets equipped with high-speed Intel® Atom™ processors offer hours of powerful functionality so that finding a great restaurant, bar or café is easy. Users have a solid platform of performance so they can relay their delectable choices with high-definition photos and write reviews. Android\* tablets enhance the culinary adventure of dining out.
