

Gaea Global Technologies

Oracle Primavera and Value Chain Experts

Enabling The Efficient Enterprise

Gaea Global Technologies
Oracle Primavera and Value Chain Experts

OVERVIEW

Gaea is a global services company that unites its pioneering knowledge of Oracle enterprise products with deep domain expertise of industry verticals to create the best solutions for its customers.

Gaea leverages its global reach, lower cost base, round the clock service, to deliver fundamentally superior ROI. Gaea has an established track record as Oracle Gold Partner for delivering unrivaled value and customer satisfaction to its clients worldwide. Gaea was incorporated by a group of experts from Oracle's Value Chain and Primavera product development organizations which have delivered enterprise applications to customers ranging from Fortune 50 companies to small and mid-sized businesses. Our business and technical consulting teams operating from the United States and India Delivery Centres employ an efficient global delivery model to service our customers.

OUR FOCUS

Oracle Primavera Services

Gaea offers best-in-class Enterprise Project and Portfolio Management services through Oracle Primavera to help businesses with intensive project management needs manage their entire portfolio lifecycle.

Gaea's global delivery team has implemented Oracle Primavera's flagship Enterprise Project and Portfolio Management Suite in a variety of industries. Using best practices from these implementations, our program is designed to maximize ROI whether our clients start fresh with Primavera or wish to upgrade from older versions.

Value Chain Execution Services

We provide a full suite of services for implementing and optimizing Oracle's Value Chain Execution solutions including WMS – Warehouse Management Systems, MSCA – Mobile Supply Chain Applications, OTM – Oracle Transportation Management, Manufacturing and Shipping Execution. Our team is led by the original architects of Oracle Warehouse Management and MSCA systems who combine in-depth knowledge of Oracle's products with an appreciation of real world challenges and opportunities garnered through decades of consulting experience.

Value Chain Planning Services

We offer a comprehensive suite of value chain planning services to enable best-in-class supply and demand planning business processes, using Oracle's Advanced Planning and Demantra Demand Management solutions. Our suite comprises tools from effective Demand Planning to Sales & Operations Planning, Supply Planning & Scheduling, designing of resilient supply chain networks, among others.

Product Lifecycle Management

Gaea's technology services centered around Oracle Agile enable organizations to efficiently manage their product lifecycles. In concert with Oracle Primavera for managing corresponding project schedules, Gaea offers an end-to-end best-in-class product portfolio management solution which was developed in close association with Oracle.
