SIGVARIS' Newest Compression Socks are a Perfect Fit for All Seasons

SIGVARIS' ALL-SEASON MERINO WOOL Socks are now available in 20-30mmHg and are thermoregulating for comfortable wear all year long.

PEACHTREE CITY, GA (September 29, 2014) – SIGVARIS prides itself on being an innovator in the field of graduated compression products, and last year, SIGVARIS took that innovation to a new level with the launch of a luxurious line of graduated compression socks designed with natural fibers in 15-20mmHg.

Now, SIGVARIS is pleased to announce that the ALL-SEASON MERINO WOOL Socks are joining the SIGVARIS MEDICAL collection, which is a perfect fit for those who wear 20-30mmHg medical graduated compression socks every day.

Designed from extra-fine Australian Merino Wool, these socks are as soft as cashmere. This premium wool construction keeps feet dry, for comfortable wear in any season. Many people don't realize that wool socks are naturally thermoregulating to keep feet warm in cooler months and cool in hotter months.

The ALL-SEASON MERINO WOOL line is currently available in navy, brown and black for both men and women and will be a perfect addition for any wardrobe this fall. These socks are also great for travel.

Socks and hosiery that feature graduated compression are designed to be tightest at the ankle and decrease in pressure going up the legs. Graduated Compression garments help improve circulation and revive tired, achy legs. They also help with the treatment and prevention of varicose veins. SIGVARIS offers three categories of products: SIGVARIS MEDICAL, SIGVARIS WELL BEING and SIGVARIS SPORTS.

For more information about the ALL-SEASON MERINO WOOL Socks or for tips about how to keep your legs healthy, visit www.sigvarisusa.com.

About SIGVARIS
