Life Depends on Light™

## Tactical Long Gun Light Kit

### Non-Rechargeable

The Nightstick Tactical Long Gun Light Kit provides everything necessary to add a high-power tactical light to any long gun that has a Picatinny or Weaver rail. At the heart of the kit is the Nightstick TAC-300B polymer tactical light rated at 180 lumens. Combined with a high-efficiency deep parabolic reflector, the beam on the TAC-300B is distance rated at 190 meters...perfect for long-distance target acquisitions. With a wide secondary halo of light, the TAC-300B is equally effective in CQB situations. When paired with the included Remote Pressure Switch, the TAC-300B becomes the perfect addition to the weapon. With its momentary on/off design, the Remote Pressure Switch assures the operator of complete control over the full power of the light.
