

KOMEN CAN AZ AFFILIATE FACT SHEET

OUR PROMISE

Our mission to save lives and end breast cancer forever was born in a promise made from one sister to another. This Promise, turned mission, ignited a global breast cancer movement, and by empowering people with knowledge, ensuring quality care for all through advocacy and grant funding, and energizing science to find the cures through ground-breaking and award winning research, we work tirelessly to realize our vision of a world without breast cancer.

OUR COMMUNITY

Our local Affiliate has been changing the lives of women, men and families in our nine county service area since 1993. Celebrating 21 years as an affiliate, we have updated our name from Komen Phoenix to Komen Central and Northern Arizona (Komen CAN AZ) to better reflect our service area. Komen CAN AZ has been honored to serve this region of our state by driving change to reduce the mortality from breast cancer in our community.

OUR WORK

OUR INVESTMENT TO DATE

- Educates those at risk through early detection initiatives.
- Acts as a resource for breast self-awareness, education, screening, treatment, and survivorship support.
- Funds innovative community grants programs that provide life-saving education, screening, and treatment services.
- Advocates change in state/federal policy to open doors for screening and treatment options.

75% of our proceeds stay in central and northern Arizona to fund programs that focus on education, screening, and treatment.

25% of our proceeds support international award-winning research.

OUR IMPACT

We are proud to be the largest private grantor of community breast cancer funds in Arizona. Since our inception we have awarded more than \$19.5 million to local agencies in central and northern Arizona. In 2014 more than \$855,000 was raised to support thousands of people in Arizona through education, mammogram screenings, treatment, and survivor services. Since 1993, we have also contributed more than \$5.9 million to national and international research projects.
