

SummitLink®

CHAUFFEURED RIDE
Online Reservation Service

**Order rides and
receive confirmations
in real-time—faster
than ever before.**

**Now book your chauffeured car
rides online—it's fast, it's easy,
it's SummitLink®**

SummitLink® is a real time **online reservation solution** that integrates you with your car providers. SummitLink® eliminates the hours spent calling for ride reservations and waiting for confirmations. Every transaction is quickly and easily handled **online!** Now order rides and receive confirmations in real-time—faster than ever before. It's efficient and convenient plus passengers can book their own rides from any internet access terminal.

- Real-time booking of rides—eliminates the need for telephone reservations
- Increased accuracy of reservations
- Improved efficiency of reservation process
- Access to multiple car services through one interface
- Real-time validation and verification of client information
- Ability to enforce travel and business policies

SummitLink® also integrates seamlessly with our existing SummitGround®—our innovative solution that integrates process, people and technology to deliver measurable business benefits including cost savings and a better passenger experience. SummitGround® captures 100% of transaction details, automates critical business processes, and significantly reduces the need for paper and audits.
