2014 Nagios World Conference Proves Biggest Success Yet

SAINT PAUL, MN (PRWEB) – After a week of breakout sessions, a product launch, presentations, and networking experiences, Nagios World Conference has concluded with a bang. The 2014 conference proved to be a huge success with the largest turnout to date, over 50 breakout sessions, and a jam-packed keynote complete with a new product being unveiled.

The 2014 Nagios World Conference was the largest to date in terms of attendees and scope. This year's conference featured a keynote experience comparable to a Fortune 100 product launch and the increase in attendance filled the hall to capacity. Nagios World Conference has historically been a place for community and company to come together, grow, and share – the 2014 conference was no exception.

With the release of Nagios Log Server, Nagios Enterprises expanded its reach into the log monitoring and management space and extended its IT management capabilities. Log Server is a powerful log management solution designed to provide system administrators with the tools necessary to mitigate network compromises, perform network audits, and provide storage and data security to organizations of any size.

In addition to the product launch, five Nagios MVPs were announced at this year's conference including: Troy Lea, Eric Loyd, Janice Singh, Bryan Heden, and Chitose Sasaki. MVP awards are presented to community members who exhibit extraordinary community involvement, support, and development to help continually improve the Nagios experience.

The conclusion of the 2014 conference has proven that Nagios World Conference is an event that gets better with each year. Posting a record attendance, knowledge and expertise from over 50 IT professionals, a new product announcement, unique Twin Cities experiences, and more, attendees can definitely have something to look forward to in Nagios World Conference 2015.

For attendees and community members looking to share their knowledge at the 2015 event, speaker applications are available at: go.nagios.com/speaker2015. In addition to speaker applications, conference goers looking to save some cash on registration for next year can do so starting right now. Special discounted registration for Nagios World Conference 2015 is available at: go.nagios.com/conference2015

With multiple awards, notable users in every vertical and horizontal sector, and thousands of add-ons and extensions, Nagios is the industry standard in IT infrastructure monitoring. Nagios provides critical monitoring and alerting for networks, systems, applications, metrics, and business processes. Nagios Enterprises is the official commercial arm of Nagios and provides value-added services, products, and solutions to clients worldwide.
