IMMIGRATION SOFTWARE

Immiguru is an award-winning, web-based global immigration database. Immiguru gives you detailed, up-to-date and user-friendly corporate global immigration knowledge, including document lists, timing charts, red flags and recommended local supplier details, so that you control your projects and timelines from the start.

- 70+ countries
- Approximately 500 different immigration processes
- Reviewed every 28 days by 100+ global immigration specialists
- Filter results by nationality, home/host country, salary location and/or amount and more
- Multiple country/nationality reporting facility
- Growing and developing all the time!

New! Peregrine brings you Immigo, revolutionary new global immigration case management system software, fully compatible with Immiguru.

- Manage all your cases – and multiple immigration suppliers – in one system
- Specifically designed by global immigration specialists for the management of immigration case work
- Online, customisable access for your clients to view case status and upload/download documents securely
- Knowledge data (including steps and documents) portable from Immiguru and then editable by user
- Run complex reports on expiry dates and key performance metrics
- Intuitive and user-friendly design

Immiguru + Immigo = Case management software with detailed, live country process data

WHAT OUR CLIENTS SAY

“My firm is absolutely in love with Immiguru since we’ve been using it. It’s a fabulous tool.” [Desiree Schulz, Fakhoury Global Immigration](#)

“Immiguru has provided us with a cost effective and time efficient methodology for understanding and facilitating immigration services. We have been able to implement effective internal processes that maximise the use of our resources while giving our team the tools for greater knowledge of the immigration process as a whole.”
