Press Release

Provident Consulting announces the DocEdge™ ICD-10 Mobile Documentation Solution

*Provident, a leader in healthcare management consulting and Technology-Enabled Clinical Services™ announces the release of **DocEdge ICD-10 Mobile**, an innovative **mobile point-of-care solution** that provides high impact, easy to understand clinical flow charts to guide clinical documenters to meet ICD-10 documentation standards.*

Detroit, MI – October 16, 2014 – Provident, a leader in healthcare management consulting and Technology-Enabled Clinical Services announces the release of DocEdge ICD-10 Mobile, an innovative mobile point-of-care solution that provides high impact, easy to understand clinical flow charts to guide clinical documenters to meet ICD-10 documentation standards.

Provident demonstrated **DocEdge ICD-10 Mobile at AHIMA 2014 in San Diego, California** and Provident's CEO, Michael Dougherty, and its Chief Medical Officer, Kathy Seward, will be discussing DocEdge and Provident's comprehensive ProvidentEdge™ Education Solution at the **marcus evans National Healthcare CFO Summit Fall 2014** and the **National Healthcare CXO Summit Fall 2014**, taking place in Las Vegas, Nevada, October 19-21.

Visitors to Provident's Booth at AHIMA were guided through group and individual demonstrations of this innovative mobile app solution designed to prepare coders, physicians, nurses, and all other impacted populations for the transition to ICD-10. The Provident DocEdge mobile app is a documentation solution designed to operate seamlessly in any technical environment or on the go.

“DocEdge ICD-10 Mobile is the result of careful review of thousands of actual clinical records covering every clinical condition, procedure and care setting across our diverse client base. Combining a user-friendly interface with powerful search functionality and convenient mobile integration, DocEdge is a comprehensive **point-of-care** ICD-10 documentation solution that enables health care professionals to learn and apply ICD-10 documentation concepts faster than conventional training. For added convenience, DocEdge is organized by specialty to allow physicians and healthcare professionals to effortlessly bookmark and recall relevant

information—without having to search through pages of ICD-10 guidelines. Once the correct diagnosis or procedure has been identified, the app shows exactly what is needed to meet ICD-10 requirements—nothing more, nothing less.” said Michael Dougherty, Founder and CEO of Provident.

About Provident Consulting

Provident’s depth of experience in clinical practice, clinical documentation improvement, healthcare operations, compliance, data analysis, and revenue cycle makes us uniquely qualified to provide valuable training solutions.

Our team members have professional backgrounds working in provider organizations, law firms, and government agencies. We have unmatched knowledge of organizations across the healthcare spectrum from single hospitals to healthcare systems, academic medical centers and physician practices and a proven track record of creating value and improving compliance for healthcare organizations across the country. With a continuum of proactive and reactive solutions and a diverse team of healthcare providers, attorneys, revenue cycle experts and industry consultants with decades of experience, Provident brings continuous improvement to the healthcare industry.
