

Our sourcing solutions are simply
unmatched.

Trials without tribulations.

Sourcing commercial drugs for clinical trials can be complicated and expensive. Which is why you need a sourcing partner with the expertise and commitment to ensure your trial's success. For pharmaceutical and biotech companies, CROs, and clinical trial packagers around the world, that partner is Myoderm.

With headquarters in the US and UK, Myoderm is a global leader in sourcing, distribution, and management of drugs and supplies for clinical trials. We are obsessed with ensuring efficient and effective trials, and our innovative sourcing solutions are designed to do precisely that.

8 OUT OF 10

Experience meets obsession.

For over 25 years, Myoderm has helped clients around the world manage their sourcing needs, supplying over 3,000 sites across the globe. Our deep expertise, along with our obsession with exceeding our customers' expectations, is why we're the choice of eight of the world's top 10 pharma companies.

Unique sourcing solutions.

Whether you need a one-time shipment to your depot, an ongoing supply to multiple trial sites, or local market sourcing of supporting medications, our unique sourcing solutions are simply unmatched. And, our experienced team offers consultative guidance to analyze individual sourcing challenges and pinpoint a customized solution to ensure your trial's success.

The optimal source.

Unparalleled global reach.

With our extensive global network of qualified manufacturers and suppliers, we can access almost any quantity and type of drug you need, including hard-to-find medications and biologics. We also consistently monitor supply trends, and offer customized market intelligence reports to keep you apprised of industry challenges throughout the length of your trial.

Unrivaled customer service.

With a dedicated single point of contact, backed by our expert team of sourcing specialists, you can be confident that no matter what you need, when you need it, we are never out of reach. Our commitment to providing unrivaled service is just one of the reasons our client retention rate exceeds 90%.

Smarter sourcing & spending.

We understand the tremendous investment required for clinical trials, which is why we leverage our global purchasing power to ensure fair and competitive pricing. And unlike many of our competitors, we do not require pre-payment on orders, which means the products get to trial faster.

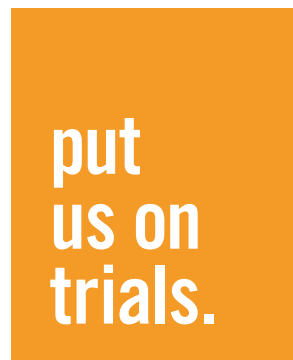

Safety, security, & quality.

Our US and UK GMP facilities provide the optimum environment for the storage and distribution of medications and ancillary supplies. With temperature-controlled cold (2-8°C) and ambient storage areas, centralized humidity monitoring, and state-of-the-art security systems, product quality and integrity is maintained.

Superior international logistics.

Our seasoned team of international logistics and regulatory specialists ensures that you get everything needed for your trials, when and where you need it. We utilize cutting-edge technology and seamless processes to manage global imports and exports, while ensuring the product is maintained to the manufacturers' specifications.

A record of success.

In the past year alone, we have supplied over 1,800 clinical projects. Every trial supply need is unique, and we pride ourselves in solving even the most complex sourcing challenges. From supply restrictions, to shortages, to recalls, our solutions have helped trials around the world continue without delay. [Click here](#) for a few of our success stories.
