

PRESS RELEASE

Certified Aviation Services Names Mike Scanlon as Vice President of Operations

Ontario, CA (PR Web) October 20, 2014 -- Certified Aviation Services, LLC (An Aero-Mark Company) Names Michael Scanlon Vice President of Operations. Mr. Scanlon will be responsible and oversee the success of the Line Maintenance Services group and its network of 15 Line Stations in the U.S.

Mr. Scanlon re-Joins the Operations team at Certified Aviation Services (CAS) from his most recent position at Aviation & Defense, Inc (ADI) where he served as President. Mike Scanlon was previously VP of Operations and prior Owner at Certified Aviation Services. Mike Scanlon's previous tenure at ADI and at CAS will provide valuable technical leadership within a growing Line Maintenance Services group at CAS.

Brad Caban, President of Aeromark, LLC said, "Mike is well known in the industry as being an extremely fair and competent supplier to the world's airlines. We are ecstatic to have him join the team as we continuously grow CAS and increase our core group to best handle the needs of our customers".

About Certified Aviation Services

CAS (An Aero-Mark Company) is a Nationwide Line Maintenance Support Services provider that offers a broad range of innovative line services that includes complex on-wing modifications, line maintenance, gas path engine washing, and aircraft exterior cleaning services. CAS' comprehensive FAA/EASA 145 Repair Station Certificate and D100 FAA Authorization allows it to perform modification and heavy maintenance throughout the US and abroad. CAS' unique approach of partnering with large domestic and international carriers allows it to deliver flexible and superior quality line services, while improving operational efficiency and reducing maintenance costs for all customers.
