

Streamlining the way your business performs business

## Who is ISS Group?

ISS Group Digitizes\* Business Processes, improving connectivity between People and Processes via the Cloud, Mobile Devices, Social Media, and Approval Routing and Workflow technology.

\*via ISS Group's Process Digitization™ development and implementation methodology

***Transforming Business Processes from Analog to Digital***

## ISS Group Solutions

### iApprove

Rules-based Approval Routing and Workflow

### iPurchase

Indirect Spend Management

### iQuote

Customer Sales Quotes Management

### iRFQ

Supplier Material Pricing

## iApprove

### Rules-based Approval Routing and Workflow

iApprove™ is a web and rules-based approval routing and workflow solution developed utilizing Progress Webspeed and Ajax, together with the ISS Group iFramework™ and AART™ technologies. iApprove™ provides functionality to create web-based 'Process Forms' (ie; Customer Claims, CapEx requests, Check requests, ...), for the purpose of routing the form via the Cloud and Mobile Devices to one or more people within your organization based on a set of user defined rules and any or all of the data in the form. Workflow instructions are provided to the Process Members who receive the form, and an action takes place upon approving the form (ie; updating QAD data, creation of an eMail or Text message alert, creation of a QAD transaction such as a PO or Sales Order, ...).

## iPurchase

### Indirect Spend Management

iPurchase™ is a web-based indirect material (ie; MRO, office supplies, ...) purchasing solution real-time integrated with QAD. iPurchase™ utilizes the ISS Group AART™ technology for routing of PO Requisitions and creates QAD Purchase Orders upon Requisition approval. iPurchase™ provides Supplier eCommerce Shopping (Punchouts), Supplier Catalog Management, Project Budgeting & Spend Tracking, EMT functionality, PO Change, PO Inquiry/Re-print, Mobile functionality, and UNSPSC Purchasing Analytics. iPurchase is also integrated with QAD EAM, MiniSoft eFORMz for PO print, and CyberQuery from CyberScience for advanced process analytics.

## iQuote

### Customer Sales Quotes Management

iQuote™ is a web-based sales quoting solution real-time integrated with QAD. iQuote™ utilizes the ISS Group AART™ technology for routing of Customer sales quotes and creates QAD Sales Orders and/or Customer Price Lists upon quote acceptance by Customer. iQuote™ provides the functionality to create sales quotes for new Prospects or existing Customers, creating a sales quote for new or existing Items, multi-line sales quotes and volume discounting, creating a new sales quote from quote history, and more.

## iRFQ

### Supplier Material Pricing

iRFQ™ is a web-based request for quotation solution real-time integrated with QAD. iRFQ™ utilizes the ISS Group iFramework™ technology to create RFQ's for one or more items to be sent to one or more Suppliers, and the ISS Group AART™ technology for routing and approving of RFQ data prior to the RFQ being sent to the Supplier(s). iRFQ™ can be implemented stand-alone or with iPurchase™ and provides functionality such as importing Supplier pricing information for comparison, awarding the business to a Supplier, and tracking the 'life' of an RFQ.
