

**PRESS RELEASE
FOR IMMEDIATE DISTRIBUTION:**

Vantec Expands Display Series with USB 3.0 Universal Dual Video Docking Station with SD Reader and USB 3.0 to HDMI Display Adapter.

The Vantec USB 3.0 Universal Dual Video Docking Station and USB 3.0 to HDMI Display Adapter provide an ideal solution for expanding the connections and Video capability of Laptop, Ultrabook and MacBook.

FREMONT, California, USA – October 28, 2014 – Vantec Thermal Technologies—a worldwide leader specializing in computer accessories, storage and mobile solutions—announces the new additions to the Display Series. The Vantec USB 3.0 Universal Dual Video Docking Station with SD reader is an expansion device designed for today’s ultra-lightweight and portable laptops. It provides an easy link to all the peripherals using a single USB 3.0 connection to the computer, once connected, the monitors (HDMI/DVI), headphone, microphone, Gigabit Ethernet network, five additional USB 3.0 ports and SD/MicroSD reader are all ready for use. The Dual HD video port can easily turn the laptop into a Multi-Monitor Workstation, the SD/MicroSD reader supports the latest and larger capacity cards and the availability of five additional USB 3.0 ports allows for more USB devices to connect and use like storage, mouse, keyboard, and printers. This Vantec USB 3.0 Universal Dual Video Docking Station creates an office setup without sacrificing portability by consolidating all the peripherals and simplifies the workspace.

The Vantec USB 3.0 to HDMI Display Adapter is a quick and easy way to add an additional monitor to your desktop or laptop computer. Connected through an available USB 3.0 port, the adapter can double the primary desktop display space or mirror to a HDMI projector or large screen monitor in full HD mode. Configure with multiple adapters to add up to 6 HD displays; this convenient way of extending the video capability will help increase productivity and efficiency.

The Vantec USB 3.0 Universal Dual Video Docking Station and HDMI adapter will be available on the market this early November. For additional product information and full technical specifications, please visit www.vantecusa.com.
