

DermatologistOnCall®

Improved care for your patients. Greater flexibility for your practice.

Introducing DermatologistOnCall®, powered by Iagnosis®.

Today, the entire world is trending virtual – from the way we communicate to the way we provide services, and healthcare is no exception. DermatologistOnCall® is a secure, HIPAA-compliant platform that allows board-certified dermatologists to treat patients virtually increasing practice productivity and profitability. For patients, it couldn't be easier: create an account, upload pictures of a condition and receive a diagnosis and treatment plan, all online. Not only does it provide a quicker, more convenient solution for patients, it offers multiple benefits for your practice as well.

Administrative Efficiency

Alleviate call-backs about prescriptions treatment questions and consultations by sharing virtual records with patients

Enhanced Scheduling

Solutions for patients who want to be seen more quickly, and opens in-office visits for patients who need them most

Improved Financials

Help hundreds of patients without extra office hours and minimal online time consultation

Greater Time Management

Physicians can diagnose patients on their time, anywhere an Internet connection is available
