

HIPAA Compliance Solution

New HIPAA Compliance Solution Program

Keeping up with *all* the HIPAA Compliance Regulation can be a daunting task. However, assurance that you are compliant is a smart business decision and offers you the piece of mind from a threat of a breach or audit. BridgeFront has been in the compliance business for over a decade and we're here to help. If you are a clinic, practice or business associate, you can now take advantage of our new multi-level monthly service that keeps you in compliance. Choose the solution that best fits your needs and let us do the rest.

HIPAA Risk Assessment

Our systematic approach to conducting risk assessments include over 100 points of review, ensuring nothing is missed, and a comprehensive report of the findings. Our risk assessments can be conducted remotely, so you are not investing in costly time and travel expenses.

Network Scans

Most patient data breaches are a result of lost or stolen unencrypted devices, such as a laptop. A network scan will attempt to "hack" into your network, exposing vulnerabilities with firewalls, software versions and more. Once found, vulnerabilities can easily be fixed by reducing your exposure.

HIPAA Education and Updates

Keep staff up-to-date with the latest HIPAA information. Offered online in a self-learning online format, annual refresher training takes no more than 30 minutes and is easy-to-track. Training completions are fully documented and will pass any audit inspection.

Policies and Procedures

Template policies and procedures make short work out of creating your HIPAA Policy Manual. Use Microsoft Word to modify them with your organization's information and you are done.

Business Associate Agreement (BAA)

Ensuring you have a BAA with all of your vendors is paramount to HIPAA compliance. We will provide a BAA template that can be modified per vendor and then you are on your way.

Customization

If you need help in the customization of policies, the business associate agreement or even our HIPAA training, you can get that too. Our professional staff can edit or customize to fit your exact needs.

Pricing

Select from three service levels (standard, select and preferred), each with a small monthly fee. The Standard plan for an office of five physicians starts as low as \$150/month and can be further reduced with a multi-year agreement. Getting started is easy. Visit the BridgeFront website and request more information.

About BridgeFront

BridgeFront is the most trusted name in healthcare compliance solutions. For over a decade, we have been serving the needs of the healthcare industry in HIPAA education and training, policies and procedures, business associate agreements, network scans, and risk assessments (*everything* compliance). Our pragmatic methods have allowed us to offer prices at the lowest possible rates, while at the same time ensuring the integrity of our work.
