About Pollogen

We believe in constantly challenging ourselves to create the most advanced, effective medical aesthetic technologies and solutions. We believe in thinking differently.

In everything we do, we take a customer-centric approach by making our products user-friendly, safe and convenient. At Pollogen there is no such word as “done”; we continually perfect our solutions to provide treatments that are pleasant and effective. We believe in finding ways to develop technologies that work with the body’s natural mechanisms so beautiful results are generated from within.

Pollogen is the developer and manufacturer of five revolutionary technologies under the industry premier brand names VoluDerm, VoluDerm HE™, OxyGeneo®, Hybrid Energy™, TriPollar®, TriLipo® and TriFractional™. We offer a full line of clinically-proven, safe and effective, non-invasive anti-aging facial and body contouring treatment platforms for a wide range of aesthetic applications. Pollogen provides solutions for professionals in over 60 countries, addressing the specific needs and dynamic changes unique to the ever-evolving aesthetic industry.

Clinical Validation

Pollogen LEGEND™
Effective dermal volumizing, skin tightening & body sculpting without pain or downtime
Pollogen LEGEND™ is an advanced medical aesthetic system incorporating the leading industry technologies - VoluDerm™ HE, a micro-needle RF technology, TriLipo® using non-invasive RF energy and Dynamic Muscle Activation (DMA). The combination of these technologies provides effective dermal volumizing, skin tightening and body sculpting.

**VoluDerm HE technology**

VoluDerm HE is a minimally invasive solution that uses fine micro-needles applying RF and non-thermal electrical energy to gently ablate the epidermal layer and volumize the dermal layer. The micro-needles stimulate the body to naturally produce hyaluronic acid, new collagen and elastin. The result is significant with long-term dermal volumizing, wrinkle reduction and skin resurfacing.

**TriLipo technology**

TriLipo works concurrently on the dermis, hypodermis (fat) and muscle layers to noninvasively deliver superior fat reduction and body contouring. The combined effect of TriLipo RF and TriLipo DMA causes deep and homogenous heating of both the dermal and fat layers stimulating the release of liquid fat from the cells and accelerating natural fat metabolism. Focused TriLipo RF energy causes a contraction of the collagen fibers leading to immediate and long-term tightening results.

**FACE**

- Facial dermal volumizing
- Skin tightening and fine line reduction
- Facial skin contouring
- Acne scar improvement
- Skin resurfacing

**BODY**

- Circumference and cellulite reduction
- Body contouring
- Skin firming, lifting & rejuvenation
- Stretch marks and scar improvement

**Pollogen LEGEND platform includes 4 ergonomically designed applicators**

1 x VoluDerm HE applicator with a single-use micro-pin tip
3 x TriLipo applicators for different size areas

**Physician Testimonials**

“With the Pollogen LEGEND system, I can totally achieve the results my patients and I desire. The facial dermal volumizing and wrinkle reduction results are exceptional. The skin becomes more supple and elastic and my patients look and feel years younger. Most importantly, the results are natural-looking which is what my patients want.”

Michael H. Gold, MD, Nashville, TN

“I find Pollogen’s TriLipo non-invasive body shaping systems effective for circumference reduction, removing localized fat deposits and reducing cellulite. My patients are very pleased with the immediate and long-lasting results and are grateful that the treatments are so quick and pleasant.”

Michele Pelletier, M.D. Toulon France
