

geneO⁺
by Pollogen

for the ultimate
SUPER FACIAL
experience

OxyGeneo[®]

TriPOLlar[®]

Ultrasound[™]

The **gene0+** redefines facial treatments with the integration of the 3 most effective skin-enhancing technologies: **OxyGeneo**, **Ultrasound** & **TriPollar**. One platform now can deliver skin nourishment, skin tightening and can reduce the appearance of wrinkles.

The gene0+ Super Facial platform uses **Ultrasound** to increase skin permeability for maximal infusion of essential nutrients and **TriPollar RF** for skin tightening, firming and rejuvenation

The gene0+ will make a real difference to your business:

- Offers the most updated facial technology
- Affordable pricing; quick ROI
- Charge premium price
- All-in-one solution for facial treatments
- New opportunity for lunch-time treatments
- Opportunity to upsell in-house product line

Katie Rietta, Owner Skin Deep Phototherapy Toronto, Canada

"The gene0+ is by far the best exfoliation treatment I have used. The combination of true oxygenation, exfoliation and the infusion of hyaluronic acid and other specific ingredients delivers amazing results! My clients love the gene0+ and return again and again. Once experienced...they are hooked! Selling packages is no longer an issue and home care sales are up! The treatments increase the skin's ability to absorb product and even improves home care solutions!"
