

# An Adventure to Freedom: Vector by Nekki

## Now Optimized for Intel® Atom™ Processor-Based Tablets for Android\*

The development team at Nekki has collaborated with Intel® to optimize its Parkour-inspired game Vector for Android\* tablets powered by Intel® Atom™ Processors. Users of this device can now strive to escape a totalitarian world by running, vaulting, sliding, and climbing their way to freedom.

Vector is an exciting, arcade-style game featuring the player as an exceptional free runner who won't be held down by the system. Using extraordinary techniques based on the urban ninja sport of Parkour, players aim to break free all while being chased by "Big Brother," whose sole purpose is recapture. Sophisticated level designs guarantee that even the most demanding players will enjoy fast-paced puzzles and on-going challenges.

## Intuitive, Interactive Gameplay Now on Android\*

With Vector, Android\* users face over 40 challenging levels in a game that is quick to learn, but difficult to master. The Parkour-inspired moves made possible by Nekki's Cascadeur animation tools are astoundingly lifelike on the high-resolution Android\* screens. Navigating the way to freedom is made easier and more precise thanks to the screens' high sensitivity for players.

### Features of Vector for Android\* Tablets Powered by Intel® Atom™ Processors
