OnRamp Named to HostReview's Top 10 Hosts in Best Managed Hosting Category

AUSTIN, TX – OnRamp, a leading high security and hybrid hosting provider with data center facilities in Texas and North Carolina, today announced it has been named to HostReview's Top 10 Hosts in the Best Managed Hosting category for December 2014. HostReview's monthly Web Hosting Awards globally recognize the best providers of solutions designed to meet business' web hosting needs. Based on factors involving service quality, customer support, package diversity, new products and overall support, the Best Managed Hosting Service Award, in particular, highlights OnRamp's equipment procurement, provisioning and installation, and network monitoring and management capabilities as well as the company's overall presence.

OnRamp's state-of-the-art data center facilities are built to the highest levels of security, redundancy and reliability for Colocation, Managed Hosting, Private Cloud and Disaster Recovery customers. As an SSAE 16 SOC I Type II audited, PCI Level 1 and HIPAA compliant company, OnRamp maintains round-the-clock security, monitoring and surveillance from experienced on-site network engineers. OnRamp's data center services are backed by Full7Layer Support with 24/7/365 onsite engineers with the expertise and capability to support customers all the way through the application layer.

"2014 has been a year of many highlights for our company," stated OnRamp President, Ryan Robinson. "With the opening of our third Data Center, a 42,000 square foot facility in Austin, the official launch of our Channel Partner Program, which was named to CRN's MSP 500 Data Center 100 List, and the first full year of operations for our Raleigh Data Center, we have a lot to be thankful for. Receiving this award is a great way to close out the year and we are truly honored to be recognized for this achievement."
