

Fisher & Paykel

A HISTORY OF INNOVATION

Since our founding in 1934, we have grown into a global, design-led company of more than 3,000 people. Designed and engineered in New Zealand, our products are sold in 50 countries around the world. Our design heritage is founded on a pioneering spirit and a culture of curiosity that has challenged conventional appliance design to consistently deliver products tailored to human needs. For us, legacy is about looking into the future, while ensuring what we develop today is aligned to the fundamental principles of sustainable design. We are committed to ongoing research and development. Our culture is one of open innovation, which allows people to work collaboratively to find insights and ideas that connect with our customers and respect our planet.

We live one day at a time.

Cooking
eating
cleaning
washing
drying
hunting
gathering
talking
playing
relaxing.

And then doing it all over again.

Day in, day out.

TURNING ROUTINES INTO EXPERIENCES

Behind every product is a story and that story starts with you. Your home is an expression of who you are and how you live. Our passion is creating better products that turn everyday routines into enjoyable experiences. We understand the dynamic nature of modern living. We deliver products that are adaptable, functional and durable, as well as human. We don't just make things that fit the space provided, we create products that fit the lives lived around them. Live life — we'll take care of the details.

THE SOCIAL KITCHEN

The kitchen is the humble engine room in which we choose to live—where we create, socialize and enjoy the best that life has to offer. Cooking is a social activity. We generally place the key appliances in what we consider to be logical places: the work triangle of cooktop, sink and refrigerator. But we no longer cook in straight lines. We don't cook on conveyor belts. Sometimes we assemble, sometimes we bake, sometimes we stir-fry and sometimes we boil. We don't cook the same way every day: we can be a weekday cook and a weekend gourmet. The work triangle limits our creativity. It's not just about efficiency; sometimes it's about fun. Too many cooks may spoil the broth or they may create a wonderful, social and enjoyable meal. Let's reclaim the kitchen. Let's live outside the triangle.

DESIGNED FOR REAL LIFE

At Fisher & Paykel, we are curious about people—how they live, where they live, what they do and how they use things. This is where hidden insights wait to be uncovered. We are curious about not only the function and performance of our products, but also the emotional role they play in people's lives. For us, design is not a self-serving goal—it is a human endeavour to make life a little bit better.

COOK

COOK TO CREATE

We see cooking not as a chore, but a creative act. As more of our lives become virtual and people look for ways to make and create things, we design high-performance tools you can rely on and be creative with, that turn everyday meals into creations. Fisher & Paykel products cater for different patterns of use—whether it's mid week convenience or weekend gourmet, heat and eat or a family feast. We understand everyday life and support the lives lived around our products. Cooking is part of our DNA—one part designer, one part chef. We have a passion for food and we are just as interested in making high-performance ovens that perfect your favorite foods as making the process of cooking more enjoyable. Our insights come from real-world use and then the results are tested in our lab daily, with the aim of inventing technologies that deliver the perfect cooking result.

BUILT-IN OVENS

Fisher & Paykel's multifunction Built-in Ovens are designed to perfect your favorite food, with a full range of cooking modes and temperatures providing greater control and more flexibility; and with a selection of generous oven sizes to meet the needs of the most demanding cook. Roasting is an art as well as a science. The difference between rare and medium takes timing, intuition and a well-trained eye. Fisher & Paykel's Built-in Ovens are programmed to quickly heat to a high temperature, browning the meat to create delicious savory flavors before automatically lowering the temperature to deliver a perfect, tender roast every time. Most of our ovens are self-cleaning and include CoolTouch doors with multiple panes of glass and advanced cooling systems that ensure the external surfaces remain safe to the touch.

30" Built-in Double Oven

Designed for ultimate performance and cooking capability, the 30" Built-in Oven comes in both single and double models, with a 4 cu.ft. capacity. It features 10 cooking functions, a self-cleaning mode and a catalytic smoke eliminator. Finished in black reflective glass and stainless steel, they blend minimalist design with durability—matching the Fisher & Paykel family of kitchen appliances, from Cooktops to ActiveSmart™ refrigerators, CoolDrawer™ multi-temperature drawers and DishDrawer™ dishwashers.

1 Perfect Results

The ultra-fast heating and powerful 4400W grill is optimized by the AeroTech™ convection system, which circulates heat evenly.

2 Sized to Suit

4 cu.ft. of capacity makes this oven big enough to cook a turkey and a large tray of roast vegetables.

3 Designed to Match

Finished in black reflective glass and stainless steel, these elegant, yet durable ovens match the rest of Fisher & Paykel's coordinated kitchen family.

4 Easy Cleaning

No need for harsh chemical cleaners in our ovens; simply remove the racks and set to self-clean.

5 Precise Control

Temperature adjustment is easy with smooth, balanced dial movement. Brilliant halogen lighting, plus a large viewing window improve performance and efficiency.

6 Safe and Sound

CoolTouch doors are safer and more energy efficient. An advanced heat-reflective coating and innovative cooling system keeps heat inside the oven.

7 Accessories

This oven includes a three-piece anti-splatter grill system, a meat probe that automatically stops cooking when the predetermined temperature is reached, and two aluminium baking trays.

24" Built-in Single Oven

This oven delivers the superior performance and full functionality of a larger model with nine programs to best suit your dish.

1 Perfect Results

An electronic thermostat controls temperature variation when cooking, ensuring consistent temperatures throughout the oven and the 3000W Broil provides rapid and consistent results, quickly searing food to seal in flavors and nutrients.

2 Sized to Suit

This oven can be placed virtually anywhere and can be installed at a convenient height to suit your kitchen design and preference. With a choice of four shelf positions to give you a range of options for organizing the interior of the oven.

3 Designed to Match

Finished in black reflective glass and polished metal, this elegant, yet durable oven matches the other appliances in the larger Fisher & Paykel coordinated kitchen family.

4 Easy Cleaning

Simply remove the racking, set to self-clean and the oven will take care of any grease or grime, reducing it to ash that's easily wiped away with a cloth.

5 Precise Control

An electronic thermostat controls temperature variation when cooking, ensuring consistent temperatures.

6 Safe and Sound

CoolTouch doors that are made of up to four panes of glass and its own cooling system, ensure it is safe to touch on the outside.

COOKTOPS

So many things to consider when selecting a cooktop: a look to match your kitchen, a size to fit your space and a fuel type to suit your cooking style. It all comes down to personality and preference. Whether it's the performance and theater of live flame, the precision, control and sleek simplicity of induction, Fisher & Paykel's Cooktop family is designed to provide the right solution. Whatever your choice, there are many configurations and sizes to suit any cooking style. Each product has been designed to deliver great performance—from searing heat to the gentlest of simmers—and all are designed for easy cleaning and with safety in mind.

Flush Gas on Steel Cooktop

This cooktop integrates perfectly into your bench top providing a subtle unobtrusive design. With power levels for everything from a slow simmer for sauces, to an intense heat for steaks and stir-fries, this cooktop combines sleek design with excellent functionality.

1 Perfect Results

This cooktop has five different burners with a variety of strengths. The uniform flame and even heat distribution of the dual flame wok burner combined with highly responsive dials offer precise heat adjustment.

2 Designed to Match

This cooktop provides a flush look with burners recessed into the bench top height integrating into the kitchen and offering an uncluttered work surface. The brushed stainless steel and polished metal trim match the rest of our family of kitchen appliances.

3 Easy Cleaning

These cooktops are designed as a single piece of stainless steel for easy cleaning. Durable and easy to clean, cast iron trivets with rubber feet provide a safe and stable cooking surface.

4 Precise Control

The Autoignition system ignites the flame quickly and safely. Innovalve™ technology allows you to adjust the flame with 180 degree gas valve rotation for accurate temperature control.

5 Safe and Sound

The dials will glow red when on, and white when off, showing at a distance which burners are lit. The Auto-reignition system means you don't have to hold down a dial while burners ignite and if a burner goes out, it is automatically relit at the original flame setting.

7 Accessories

A small pot stand and wok support are provided with this cooktop.

Gas on Steel Cooktops

The Gas on Steel Cooktop offers power levels for everything from a slow simmer for sauces, to an intense heat for steaks and stir-fries. Combining the attractiveness of sleek stainless steel with the durability of cast iron trivets, these cooktops support the most avid chef.

1 Perfect Results

The Gas on Steel Cooktop perfects both the slow simmer needed for sauces and the intense heat needed for searing and wok cooking. It comes with five different strength burners.

2 Sized to Suit

With five burners, including simmer, rapid and two wok burners, the Gas on Steel Cooktops provide great cooking flexibility.

3 Designed to Match

The brushed stainless steel blends elegance with durability — matching the rest of our coordinated kitchen family.

4 Easy Cleaning

This cooktop is designed as a singular piece of steel with quick component removal for easy cleaning. Durable and easy to clean, cast iron trivets provide a safe and stable cooking surface. The rubber feet ensure that the cooktop is not scratched when the trivets are placed onto the cooktop.

5 Precise Control

For accurate temperature control, ergonomic dials on the front of the cooktop automatically ignite the flame quickly and safely.

6 Safe and Sound

The auto-reignition system means that if the flame is accidentally extinguished the cooktop will reignite itself. All Fisher & Paykel Gas Cooktops feature electronic ignition ensuring they are quick, reliable and safe.

Touch Control Induction Cooktops

Traditionally we cook by generating heat from one source, such as a flame, and conducting it to another. The Fisher & Paykel Induction Cooktop works on a different principle. The cooktop itself produces electromagnetic vibrations, which induce the pot or pan to generate its own heat, resulting in shorter heat-up times and a safer cooking surface.

1 Perfect Results

The PowerBoost function delivers instant, intense heat when you need it and the GentleHeat function produces slow, continuous simmering.

2 Designed to Match

Induction cooking is popular with those who love visual simplicity and clean, smooth lines. Finished in black glass, you get elegant design with durability.

3 Easy Cleaning

The flat surface is easy to clean because there are no obstructions and because Induction heats just the pot rather than the surrounding glass, the likelihood of burned spill overs is greatly reduced.

4 Precise Control

Induction cooking delivers an immediate response with greater energy efficiency than that of either gas or electric. Soft-touch controls are simple to use and provide great precision.

5 Safe and Sound

This cooktop will alert you if it's turned on without a pot or pan on it, and will switch off if you don't respond. It will switch off if the pan being used isn't suitable for induction cooking. We use ecofriendly ceramic glass in the production of our Induction Cooktops without any arsenic or heavy metals used in the manufacturing process.

Electric Cooktop

1 Perfect Results

Solid performers with superb simmer results, our Electric Cooktop allows you to move pots and pans around simply and quickly while high-speed ribbon elements provide good temperature control from a rapid boil to an extremely low simmer.

2 Sized to Suit

This cooktop has five elements, giving you room to boil, fry, steam and simmer all at once. The perfectly flat surface cools down quickly when switched off, so that the surface can be used as an extra preparation area if needed.

3 Designed to Match

Designed using premium quality materials, the finishes and controls match the rest of our coordinated kitchen family.

4 Easy Cleaning

The flat surface makes our Electric Cooktop very easy to clean. Ceramic glass is very strong, adding to the durability and performance of the cooktop.

5 Precise Control

Easy-to-use dials provide precise temperature control from a rapid boil to an extremely low simmer. Up to two dual elements provide a choice of up to seven cooking zones.

6 Safe and Sound

Hot surface indicators glow until the surface is safe to touch. We use ecofriendly ceramic glass in our cooktops, without any arsenic or heavy metals used in the manufacturing process.

RANGES

On the outside, style is a matter of taste. So we put a little chef on the inside that can't wait to impress. Fisher & Paykel Ranges are visually impressive and give you the flexibility to prepare several courses simultaneously. With large ovens and a choice of gas, ceramic, or induction cooktops these ranges are finessed with clean lines in glass and stainless steel that will complement any modern kitchen.

36" Range — Gas

This Range gives you the flexibility to prepare several courses simultaneously. With a large gas oven combined with a five burner gas cooktop, the clean lines in black reflective glass and stainless steel complement the style and elegance of any kitchen.

1 Perfect Results

Four functions including bake and convection bake and a powerful 15000 BTU broil gives you professional quality results.

2 Sized to Suit

The 36" Range is spacious with a 4 cu.ft capacity. A shelving system allows ample space for larger meals.

3 Designed to Match

Designed using premium quality materials and built to last, the black reflective glass and stainless steel blend balanced aesthetic with design for durability.

4 Easy Cleaning

Cleaning is quick and simple. The cooktop is easy to clean as it is made from a single piece of stainless steel that contains spills. The oven door and its inner pane of glass can be removed for easy cleaning and the storage compartment minimizes clutter for oven accessories.

5 Precise Control

Generous metal control dials with a simple, functional interface are positioned on a full stainless steel control panel for precise control over cooking temperatures.

6 Safe and Sound

A CoolTouch door and built-in cooling system ensure the oven door is safe to touch externally. Streamlined trivets let you slide pots and pans without lifting them.

30" Range — Induction

Combining the best of both worlds, the Fisher & Paykel 30" Induction Range gives you the benefits of an easy to clean, four zone induction cooktop with the flexibility of a large oven. Elegantly designed to complement the Fisher & Paykel built-in product series with clean lines of black glass and stainless steel.

1 Perfect Results

Professional performance is delivered by eight oven functions—perfect for any culinary requirements. The cooktop's PowerBoost function delivers instant, intense heat when you need it and there is also a gentle heat setting for slow, continuous simmering.

2 Sized to Suit

Our 30" Ranges are spacious, with 3.6 cu.ft of total capacity. A five position shelving system allows ample space for larger meals.

3 Designed to Match

Induction cooking is popular with those who love visual simplicity. This Range is designed to complement the Fisher & Paykel kitchen product family with clean lines of black glass and stainless steel.

4 Easy Cleaning

Cleaning is made simple with the flat surface of the induction cooktop; the self-cleaning oven function and easily removable oven door. The combined warming and storage drawer minimizes clutter for oven accessories.

5 Precise Control

Benefits of induction include fast heat-up times, immediate response and precision cooking; cooler temperatures on the glass; and greater energy efficiency than that of either gas or electric.

6 Safe and Sound

A triple glazed door makes the oven safe to touch; the door and oven cooling system keep heat away from cabinetry; and non-tip shelves reduce the risk of dropping heavy cookware.

VENTILATION HOODS

Kitchen inspiration doesn't exist in a vacuum, but simple and responsive extraction is as important as achieving the right look for your kitchen. Designed to complete your kitchen, you can select a Ventilation Hood that best suits your kitchen layout and cooking style. No matter which you choose, all of Fisher & Paykel's ventilation products are built to perform. They have been designed as the perfect partner to our Cooktops and each captures and eliminates cooking odors, vapor and steam effectively. They are easy to use and feature intuitive controls that respond to the touch of a finger.

Ventilation Hoods

Fisher & Paykel's Ventilation Hoods offer a selection of fan speeds and clever features that quietly and efficiently remove steam, smoke and lingering smells.

1 Effective and Quiet

Odors can linger in the kitchen well after cooking is finished. The practical timer feature keeps the Ventilation Hood working for up to 15 minutes before it automatically turns itself off. (HC36DTXB1 & HC30DTX1).

2 Designed to Match

Fisher & Paykel's Ventilation Hoods are finished in black reflective glass and stainless steel that blends elegant, minimalist aesthetic with design for durability while hiding unsightly filters. The stainless steel Ventilation Hood matches the rest of Fisher & Paykel's family of kitchen appliances.

3 Easy Cleaning

An interior, wipeable plate makes cleaning effortless and multi-layered filters trap grease effectively. Designed for simple removal, the filters are easy to clean and dishwasher safe.

4 Precise Control

The sleek touch-control panel responds to the touch of your finger. Halogen lights provide superb illumination over the entire cooking surface. (HC36DTXB1 & HC30DTX1).

C O O L

WE CONTROL THE WEATHER

At the heart of Fisher & Paykel's Refrigerator-Freezers is the ability to sense and respond to daily use in an intelligent way. The combination of temperature sensors with smart electronics and variable-speed fans creates a controlled environment and optimum temperature for better food care. We call it ActiveSmart™ technology. Your refrigerator door is the most used door in your home and, every time it is opened, the temperature changes around your food. The challenge is maintaining a consistent and controlled environment despite ongoing changes inside and outside the refrigerator. ActiveSmart™ achieves this through constantly monitoring how you and your family use your refrigerator, adjusting airflow to maintain a stable and even temperature. So despite highs, lows and occasional gusty winds, when it comes to your refrigerator, let ActiveSmart™ control the weather to deliver better food care.

ACTIVESMART™
TECHNOLOGY

CoolDrawer™ Multi-temperature Drawer

The CoolDrawer™ multi-temperature drawer has been designed to change from refrigerator to freezer at the touch of a button. It is built on the concept of distributed refrigeration, combining ActiveSmart™ technology with a drawer-based design that can be placed anywhere in the kitchen, home or entertainment area. The CoolDrawer™ provides five temperature settings to deliver total flexibility – freezer, chill, refrigerator, pantry and wine modes, merging intelligence with convenience.

1 Innovative

The multi-temperature CoolDrawer™ is a world-first in refrigeration technology.

2 Convenient

Five temperature settings can be tailored to the needs of your food: freezer, chill, refrigerator, pantry and wine mode, combining intelligence with convenience.

3 Ergonomic

There is easy access at waist height, with smooth-running drawers.

4 Intuitive

The easy-to-use electronic interface can change the temperature at the touch of a button.

5 Flexible

This innovation complements your existing refrigeration and enhances your kitchen design to suit your lifestyle.

6 Precise

Highly engineered finishing ensures a 1/8" clearance between front panels, as demanded by professional cabinetmakers.

CoolDrawer™ Features

1 Freezer Mode

This mode is ideal for general frozen food storage with the added flexibility of three freezer functions—bottle chill, fast freeze and deep freeze. Freezer Mode is set at -0°F for longer-term storage of frozen items.

2 Chill Mode

Chill Mode sets the compartment to a temperature perfect for highly perishable meats, poultry and seafood. For these types of food it is ideal to store them at a temperature as close to freezing as possible to retain their vital freshness. Chill Mode sets the compartment at 31°F, just above the freezing temperature for meat.

3 Fridge Mode

This mode provides the ideal storage for most foods requiring normal refrigeration, such as fruit and vegetables, dairy products, processed meats and drinks. The compact upper storage tray is a perfect place for sensitive foods such as peaches, cherries, cheeses and deli items; the tall bin is ideal for large bottles and containers.

4 Pantry Mode

This is designed for foods that require a cool, dark place for storage, such as tropical fruits, tomatoes, bananas, bread and cereals. Pantry Mode provides a solution for all those foods that you didn't previously know what to do with and have always resorted to storing on the bench or in the cupboard. This setting offers a stable storage environment at 54°F, making it ideal for sensitive foods.

5 Wine Mode

Using the innovative Wine Mode, connoisseurs can take advantage of special settings that preserve and present wine at its optimum temperature. This mode is ideal for long-term storage of all wine at 54°F and offers two temperature selections for short-term storage.

French Door Refrigerators

This series has been designed to maximize space as well as access. With new water dispenser styling and SmartTouch controls, these refrigerators are designed to match with our family of kitchen appliances.

1 Fresher Food for Longer

ActiveSmart™ technology helps keep your food fresher for longer by constantly monitoring your refrigerator and adapting to maintain a controlled environment and optimum temperature.

2 Designed to Match

The high quality stainless steel, unique surround kits, black finish and the chrome strip detail of the slimline water dispenser, all reflect the styling of our family of kitchen appliances.

3 Easy Living

These refrigerators adapt to suit your lifestyle by streamlining food preparation and organization with SmartTouch controls, flexible shelving and storage options and slide out bins and trays.

4 Sized to Suit

Fisher & Paykel French Door Refrigerators are available in 36" and 32" widths. They can sit flush with your benchtop with ultra flat doors and concealed hinges.

5 Easy Cleaning

Removable, spill safe glass shelves are easy to clean and contain drips and spills. Storage bins and EZKleen stainless steel doors just need a wipe to keep spotless.

6 Efficient

ActiveSmart™ refrigerators intelligently adapt to daily use to save energy, cooling and defrosting only when they need to without compromising on food care. The 36" refrigerator is Energy Star rated.

Bottom Freezer Refrigerators

This series has been designed for what you use most often. The upper refrigerator enables easy access to everyday items. With new water dispenser styling and SmartTouch controls, these refrigerators are designed to match with our family of kitchen appliances.

1 Fresher Food for Longer

ActiveSmart™ technology helps keep your food fresher for longer by constantly monitoring your refrigerator and adapting to maintain a controlled environment and optimum temperature.

2 Designed to Match

The high quality stainless steel, unique surround kits, black finish and the chrome strip detail of the slimline water dispenser, all reflect the styling of our family of kitchen appliances.

3 Easy Living

These refrigerators adapt to suit your lifestyle by streamlining food preparation and organization with SmartTouch controls, flexible shelving and storage options and slide out bins and trays.

4 Sized to Suit

Available in 25" and 32" widths these refrigerators suit almost any home. They can sit flush with your benchtop, with ultra flat doors and concealed hinges.

5 Easy Cleaning

Removable, spill safe glass shelves are easy to clean and contain drips and spills. Storage bins and EZKleen stainless steel doors just need a wipe to keep spotless.

6 Efficient

ActiveSmart™ refrigerators intelligently adapt to daily use to save energy, cooling and defrosting only when they need to without compromising on food care. The 32" refrigerators are Energy Star rated.

SURROUND KIT

The refrigeration Surround Kit helps create a seamless connection between your appliance and its surrounding cabinetry. Available in a stainless steel finish, the kit frames and complements the product. A Joiner Kit can also be used to join two refrigerators. For more information visit fisherpaykel.com

ActiveSmart™ Features

1 ActiveSmart™ Technology

ActiveSmart™ technology is the combination of temperature sensors with smart electronics and variable speed fans that create a controlled environment and optimum temperature to keep food fresher longer.

2 SmartTouch Control Panel

For easy access, the new SmartTouch control panel is placed in the inside front of the refrigerator. These controls have been designed to be intuitively simple and easy to use.

3 Ultra Slim Water Dispenser

The new slimline water dispenser is now even easier to use—the angled water delivery still means that almost any size or shape of vessel can be filled, while taking up no storage space in your refrigerator door. The black finish reflects the styling of Fisher & Paykel's family of kitchen appliances.

4 Soft-close Doors

No more slamming refrigerator doors or having the door left open with soft-close hinges on the French Door Ice & Water models.

5 Ice Boost

In Ice & Water models, the Ice Boost function automatically delivers up to 25% more ice each day* into a dedicated bin that can be easily customized to store different volumes.

*compared to current Fisher & Paykel Ice & Water models

6 Humidity Control System

The Humidity Control System together with the cool and consistent temperature delivered by ActiveSmart™ technology creates the perfect microclimate in each produce bin, maintaining fruit and vegetable quality at just the right humidity and temperature level.

7 Adaptive Defrost

Adaptive defrost means that there is no need for vacation mode settings. Your refrigerator intelligently selects the best time to defrost based on how it is being used. When you are away it will use less energy as it recognizes lower levels of use and defrosts less often.

8 Storage Flexibility

Smart refrigerator organization and food preparation are streamlined with best in class features such as flexible shelving, flexible storage options and easy to access bins and trays on full extension runners.

CLEANN

WE LIVE OUT OF DRAWERS

Fisher & Paykel DishDrawer™ dishwashers are designed to make doing the dishes easier than ever before. The combination of a drawer-based system with smart electronics and independent wash technology delivers superior cleaning and better ergonomics. We call it DishDrawer™ technology. Each of our DishDrawer™ products is a self-contained dishwasher with technology that allows traditional double-format or separate modules to be configured at an ergonomic height, allowing complete design freedom. Wide, tall, double and single-drawer options allow you to choose the combination that works best for your lifestyle. The dishwashers in this series can be concealed easily behind kitchen cabinetry to seamlessly blend in with your kitchen and the ergonomic design minimizes bending by requiring less movement to open, load and close.

DISHDRAWER
TECHNOLOGY

DishDrawer™ Wide

Designed for the whole family, the DishDrawer™ Wide dishwasher complements the Fisher & Paykel 36" product series to deliver a total kitchen solution. Providing space for nine place settings, the DishDrawer™ Wide is suited to medium-sized households and can be partnered with additional drawers to cater for larger families.

1 Innovative

Before washing begins, detergent passes through the world's first flow-through dispenser to ensure it is thoroughly dissolved, providing a faster, more hygienic wash with no hint of detergent burn.

2 Convenient

This model is taller than the standard DishDrawer™ dishwasher, so you can fit large plates up to 12 $\frac{7}{16}$ " in diameter. Racking is designed to hold long utensils and can fold away to free up space.

3 Ergonomic

The DishDrawer™ is as easy to open and close as a kitchen drawer and conveniently positioned at bench height so loading and unloading requires minimal bending. Easy-to-use folding tines allow you to place large pots, platters and bowls into the drawer with ease.

4 Efficient

This model has the choice of nine wash programs, including Eco options to minimize water and energy usage.

5 Safe

For added safety, a key lock and child lock are included.

6 Ecofriendly

This dishwasher uses only 3.5 gallons of water on a Normal Eco wash program and is ENERGY STAR rated CEE tier 1 for energy efficiency and cleaning and drying performance.

DishDrawer™ Tall

This model is designed for extra headroom. The increased drawer height fits 13" plates, making cleaning up after dinner parties a breeze. The DishDrawer™ Tall dishwasher can also easily accommodate oversized platters and extra-long stemmed glasses.

1 Innovative

Before washing begins, detergent passes through the world's first flow-through dispenser to ensure it is thoroughly dissolved, providing a faster, more hygienic wash with no hint of detergent burn.

2 Convenient

This model is taller than the standard DishDrawer™ dishwasher, so you can fit in large plates up to 13" in diameter. Racking is designed to hold long utensils and can fold away to free up space.

3 Ergonomic

The DishDrawer™ is as easy to open and close as a kitchen drawer and conveniently positioned at bench height so loading and unloading requires minimal bending. Easy-to-use folding tines allow you to place large pots, platters and bowls into the drawer with ease.

4 Efficient

This model has the choice of nine wash programs, including Eco options to minimize water and energy usage.

5 Safe

For added safety, a key lock and child lock are included.

6 Ecofriendly

This dishwasher uses only two gallons of water on a Normal Eco wash program and is ENERGY STAR rated CEE tier 1 for energy efficiency and cleaning and drying performance.

DishDrawer™ Double

Designed to fit existing kitchen cabinetry, the DishDrawer™ Double dishwasher has comparable dimensions to those of traditional dishwashers but provides the benefit of two independent drawers for added convenience and ergonomics.

1 Innovative

This dishwasher is a world's first in terms of design and configuration. Before washing begins, detergent passes through the world's first flow-through dispenser to ensure it is thoroughly dissolved, providing a faster, more hygienic wash with no hint of detergent burn.

2 Convenient

The DishDrawer™ Double dishwasher lets the user match the wash program to the exact load type in each drawer.

3 Ergonomic

The DishDrawer™ is as easy to open and close as a kitchen drawer and conveniently positioned at bench height so loading and unloading requires minimal bending. Easy-to-use folding tines allow you to place large pots, platters and bowls into the drawer with ease.

4 Efficient

This model offers the choice of nine wash programs, including Eco options to minimize water and energy usage.

5 Safe

For added safety, a key lock and child lock are included.

6 Ecofriendly

This dishwasher uses only two gallons of water per drawer on a Normal Eco wash program and is ENERGY STAR rated CEE tier 1 for energy efficiency and cleaning and drying performance.

INTEGRATED MODELS

The integrated product solution enables seamless fitting between Fisher & Paykel products and your kitchen cabinetry. Your chosen aesthetic can extend beyond storage spaces to enable DishDrawer™ and CoolDrawer™ to blend in with your kitchen environment.

DishDrawer™ Features

1 Independent Drawers

An independent drawer-based dishwashing platform is part of what makes the DishDrawer™ dishwasher unique. At bench height, drawers glide open for easy access, visibility and better ergonomics. In DishDrawer™ Double dishwashers, both drawers operate independently so different wash cycles can operate simultaneously to accommodate a variety of loads. Glasses, pots and pans can be washed in separate drawers at the same time.

2 SmartDrive™ Wash Mechanism

The unique brushless DC motor acts as both a wash pump and a drain pump, which means fewer moving parts and greater reliability. The pump brings water into the spray arm, which rotates at different speeds depending on the wash cycle selected, to deliver a superior clean and better dish care. In the DishDrawer™ Wide dishwasher, two independent spray arms force water throughout the tub, ensuring maximum efficiency and ultimate wash performance.

3 Nine Wash Options

All DishDrawer™ dishwashers feature nine wash programs: Rinse, Fast Eco, Fast, Delicate Eco, Delicate, Normal Eco, Normal, Heavy Eco, Heavy. The range of settings enables the DishDrawer™ dishwasher to wash everything from fine glass and crystal to heavily soiled pots and pans at the touch of a button. Primary and secondary controls provide a simple interface for program selection and operation, while the 'delay' start setting means the dishes can be done when it's most convenient.

4 Flow-through Detergent Dispenser

The DishDrawer™ dishwasher detergent dispenser ensures that undissolved detergent does not enter into the tub; instead, it is mixed as the machine fills with water. This not only cleans each load better but also reduces the possibility of damaging delicate items such as aluminium, cutlery or porcelain glazes.

5 Superior Filtration

One of the challenges in all dishwashers is a robust filter system that removes debris and avoids blocking. Together, the kidney filter and overmoulded filter plate create a firm seal to ensure that debris does not enter the wash mechanism and cause backflow. It is designed to be removable for easy and hygienic cleaning.

6 Adjustable Racking System

The DishDrawer™ dishwasher includes a range of flexible racking options. The cutlery basket can be customized for different utensils. Folding tines can be folded flat to accommodate a full load of pots or be folded upwards to hold glassware. Pitch-adjustable racks can accommodate normal plates, deep bowls or even slide completely out of the way. Wine glass holders ensure that short and long stemmed glasses are secure throughout the wash. Added retainer clips are ideal for holding chopping boards in position.

7 Safety Features

The DishDrawer™ dishwasher incorporates unique safety features such as a child lock which both locks the drawer to prevent opening and disables the buttons. In addition, it includes three-stage flood protection: the high-strength hose withstands water pressure several times greater than normal, overflow detection cuts the water supply if limits are exceeded and the back-up switch activates the drain pump to remove any excess water.
