Turn Play Into Learning and Learning Into Play!

THE GENTLE REVOLUTION PRESS<sup>TM</sup>

GLENN DOMAN has strongly influenced millions through his groundbreaking series of books and materials that help parents teach their babies at home.

#### Dear Parents,

E ARE DELIGHTED that you have in your hand the Gentle Revolution Press catalog. Each book described here contains not only the instructions on how to teach your baby to read or learn math or gain encyclopedic knowledge, but every bit as important is the fact that it contains why you should teach your baby to read on learn math

"Every child born has, at the moment of birth, a greater potential intelligence than Leonardo da Vinci ever used."

Glenn Doman\*

or learn math or gain encyclopedic knowledge, and what will happen as a result.

That means that you must be certain to read each book very carefully before you begin. Millions of parents have read our books and enjoyed them vastly, and we're sure that you will too. We recommend that both mother and father read the books.

We have received thousands of letters from parents the world over telling us of their success with the books and asking brilliant questions. These letters arrive every day.

These letters are the greatest body of evidence that not only is it possible for tiny children to learn anything and everything, but when a child does so at an early age it is one of the most important things that will ever happen in the child's life.

These vital points are essential in teaching babies and young children:

- 1. Teach joyously.
- 2. Go very quickly.
- 3. Applaud your child's success enthusiastically.
- 4. Never test your child.

When you teach joyously you can't lose. Teaching your baby will not only add to your love for each other but will multiply your respect for each other.

You are about to begin one of the most exciting and wonderful times of your life, and we will not keep you from it any longer.

Have a glorious time together.

With love and respect, *Glenn* 

P.S. If you have anything you'd like to tell us or ask us after you've gotten started, feel free to write to us at The Institutes. We are always delighted to add to our treasury of letters from parents.

#### The Institutes for the Achievement of Human Potential\*

## Open Door to the World's Parents and Their Children

**HE INSTITUTES FOR THE** Achievement of Human Potential is a nonprofit, federally tax-exempt educational organization that has been serving children and teaching parents from around the world since 1955.

The goal of The Institutes is to significantly raise the ability of all children intellectually, physically, and socially. The Institutes accomplishes this goal by teaching parents how to create an enriched environment at home, where they can teach their children in a relaxed and happy way.

The Institutes work began with braininjured children, many of whom had been diagnosed with cerebral palsy, autism, developmental delay, Down syndrome, learning problems, and a host of other symptomatic labels. In order to find new solutions for these children, the new field of child brain development was created. As new methods were discovered, the hurt children being seen at The Institutes began to improve. A significant number were even able to catch up and go beyond their well peers intellectually, physically, or socially. This clearly demonstrated that hurt children were not hopeless, as previously had been assumed, but instead could be helped. It also proved that well children were not as well as they ought to be.

The Institutes has spent over half a century pioneering new ways of making all children more capable and more confident. Today The Institutes is internationally known for its pioneering work on behalf of hurt children and its Gentle Revolution to help all children achieve excellence.

The Institutes has been privileged to visit and study children in some of the most primitive places on earth and in some of the world's most sophisticated capitals.

#### The Gentle Revolution <sup>®</sup> Press<sup>™</sup>

**HE BOOK** that started the Gentle Revolution was *How To Teach Your Baby To Read.* When it first appeared it not only created quite a sensation but it helped to unleash the creativity of parents. The first thing every parent learns is that when you start to teach your baby, the baby wants more and he wants more *right* now. Meeting that demand has not been easy, but it has been the right problem to have because it means we are doing something right.

We began by creating reading materials to help parents get started. Then we needed *Bit* of *Intelligence*<sup>\*</sup> cards and math *Dot Cards*<sup>\*</sup>. Now we know that we can never really make enough teaching materials to keep up with our kids, but we keep trying.

The mission of the Gentle Revolution Press is to create, publish, and distribute the highest-quality materials and books of The Institutes for the Achievement of Human Potential.

The Gentle Revolution Press donates its modest profits to the work of The Institutes. You can be assured that you will have the very best materials for your baby, made exactly as they should be, and that everything you purchase will help to support the work of The Institutes to make a better world for all children.

On the order form, you can make a donation directly to The Institutes. This will support The Institutes work even further.

If you would like to order something or just ask a question, we are here to help you promptly, cheerfully, and courteously. Our job is to save you time so that you can spend as much time as possible nose-to-nose with your kids.

You will find that you and your child are the most dynamic teaching and learning team that there is. You will learn so much from each other.

Situated on 15 rolling acres in Wyndmoor, Pennsylvania, The Institutes for the Achievement of Human Potential offers an ideal setting for parents to take an active role in their children's education. It was the work of The Institutes with braininjured children and their dedicated parents that prompted the development of joyful learning tools for all children.

The programs of The Institutes, and the methods and materials used to implement them, are the result of daily experience with more that twenty-five thousand children and their parents.

The Institutes for the Achievement of Human Potential has branches in Rio de Janeiro, Brazil; Kobe and Tokyo, Japan; Fauglia, Italy; and Aguascalientes, Mexico. These are the only branches of The Institutes. The world headquarters of The Institutes is outside of Philadelphia, Pennsylvania, U.S.A.

The Institutes is funded by tuitions and donations.

For more information: Visit: www.iahp.org Call: 215-233-2050 Address: 8801 Stenton Avenue Wyndmoor, PA 19038 U.S.A.

## Nurture Your Smart Newborn

Learn how to measure and enrich your baby's first year of life

AN ESSENTIAL GUIDE TO MEASURING AND ENRICHING YOUR BABY'S FIRST YEAR OF LIFE

"This book is an inspired guided tour of the first twelve months of brain growth and development."

> Denise Malkowicz, M.D., Neurologist

#### How Smart Is Your Baby?

AN ESSENTIAL GUIDE to measuring and enriching your baby's first year of life.

This book is about the potential of the newborn baby and the vital role that parents play in developing that potential. It guides parents in evaluating their baby's development and in creating an effective and balanced daily program for physical and intellectual growth.

- English, hardcover, 266 pages (0301)
- English, softcover (0302)
- Japanese, hardcover (0301-JA)
- Russian softcover (0302-RU)
- Spanish, softcover (0302-SP)

Visit our website for a complete list of languages available.

#### THE BOOK COVERS:

- How to create a developmental profile for your baby
- How to evaluate the sensory and motor pathways
- How to develop the sensory and motor pathways
- The importance of mobility to the baby
- The importance of intellectual stimulation
- Language development dos and don'ts
- How to teach joyously
- Daily checklists
- Materials and equipment needed

- Enough, Inigo, Enough, a full-color, high-quality, hardcover book
- Certificate of Achievement to award on the day your baby reads his first book (0402)

#### THE BASIC PROGRAM

THIS PROGRAM is for parents who already have the book *How To Teach Your Baby To Read*. The Basic Program contains all of the other materials included in the Classic Program. (0401) • Available in Spanish (0401-SP)

#### THE DELUXE PROGRAM

Contains the Classic Program plus the 72-minute DVD of *How To Teach Your Baby To Read* (0404DV)

#### BOOKS FOR BEGINNING READERS

**Nose Is Not Toes** This charming book combines familiar rhyming words with a story about all sorts of interesting creatures. The book contains extra-large print so it can be read easily by very young readers. It also provides a complete vocabulary list to assist parents with instruction. Written

by Glenn Doman and illustrated by Janet Doman. • Hardcover, 143 pages (0211)

Enough, Inigo, Enough Designed to be read by two- and three-year-old children. This book illustrates the life and times of Inigo McKenzie and his insatiable desire to learn more about his world. Written by Janet Doman. • Hardcover, 58 pages (0220) *Note: This book is included in the reading programs above.* 

## Reading Word Cards

Available as Big Red Word Cards and smaller Black Word Cards.

These single word cards and couplet cards are important steps in teaching your baby to read.

#### FOLLOWING THE GUIDELINES

in the book *How To Teach Your Baby To Read*<sup>™</sup>, each card presents a single word or couplet to engage your child's interest. Packaged by category, these materials help parents to enjoy an exciting reading program with their babies and young children.

#### Big Red Word Bundle

Includes 134 Big Red Word Cards (each 6" x 22" card has 3 <sup>1</sup>/<sub>2</sub>" tall red print). Contains 112 single word cards in 8 categories (actions, animals, colors, food, objects, opposites, possessions, parts of the body) and 22 couplet cards.

(0430)

#### Black Word Bundle

Includes 168 Black Word Cards (each 3" x 14" card has 1  $\frac{1}{2}$ " tall black print). Contains 144 single word cards in 12 categories (actions, buildings, clothing, colors, fruit, kitchen items, opposites, parts of a house, possessions, shapes, transportation, vegetables) and 24 couplet cards. (0465)

### **Teach** Your Ba **lath**

as easily as teaching your baby how to read with this fun, yet proven, math-learning system

#### How To Teach Your Baby Math

#### WHEN HOW TO TEACH YOUR BABY TO READ™

sold over one million copies, a great many parents who had successfully taught their children to read asked Glenn Doman, "How do I teach my baby math?" It took ten years of Glenn Doman - Janet Doman research to find the answer. This book provides parents with a simple and clear daily program for teaching small children mathematics. As is the case with reading, mathematics is not an academic body of knowledge but rather another language in which to think and reason. The authors show clearly just how easy it is to teach a young child the reality of quantity and the simple truth behind the symbols we use in mathematics.

- English, hardcover, 242 pages (0207)
- English, softcover (0217)
- Japanese, hardcover (0207-JA)

CONTAINS the Classic Program plus the 55-minute DVD of *How To Teach Your Baby Math* (0413DV)

## Give Your Baby Encyclopedic Knowledge

and a life-long love of learning and an enthusiasm for knowledge

#### How To Give Your Baby Encyclopedic Knowledge<sup>™</sup>

#### IMAGINE A TWO-YEAR-OLD'S

delight if he were able to recognize an owl in a tree, a bee on a sunflower, or a painting by van Gogh. This exciting book presents to parents the revolutionary idea that children are far more intelligent than we had ever dreamed. In fact, we have been wasting our children's most important years by refusing to allow them to learn at the time when it is easiest to absorb new information.

Glenn Doman and co-authors Janet Doman and Susan Aisen show parents how to take advantage of those early developmental years, when a child's ability to learn is limitless. They present a step-by-step program that enables parents to create a joyous and productive learning environment at home.

- English, hardcover, 282 pages (0204)

This program is designed for those who already have the *How To Multiply Your Baby's Intelligence* softcover book. The Basic Program contains all of the other materials in the Classic Program. (0419)

#### THE DELUXE PROGRAM

Contains the Classic Program plus Teach Your Baby To Read DVD, Teach Your Baby Math DVD, and How To Give Your Baby Encyclopedic Knowledge DVD. Includes hardcover book instead of softcover book. (0421)

#### Kids Who Start Ahead, Stay Ahead By Dr. Neil Harvey

THIS BOOK EXAMINES the unique experiences of more than three hundred pre-schoolers who were taught at home before entering mainstream educational institutions. Did preschool home-learning have an effect on the children's classroom performance, social life, or behavior?

Dr. Harvey asked parents of these early learners how the children fared academically, physically, and socially once they entered school. With our own educational system ranking near the bottom among industrialized nations, it is time we understand that children who start ahead, stay ahead!

• Softcover, 176 pages (2055)

## Teach Your Child To Be Physically

#### Fit Baby, Smart Baby, Your Baby!

From Birth to Age Six

THE EARLY DEVELOPMENT OF MOBILITY in newborns is a vital part of their future ability to learn and grow to full potential. We may be wasting our children's most important years by preventing them from physically exploring their world and maximizing their mobility development when they are young-the time that it is easiest for them to do so. In Fit Baby,

Smart Baby, Your Baby!, Glenn Doman-founder of The Institutes for the Achievement of Human Potential-along with Douglas Doman and Bruce Hagy guide you in maximizing your child's physical capabilities. They clearly explain each stage of mobility and show how to create and environment that will help your baby more easily achieve that stage. Full-color charts, photographs, illustrations, and detailed yet easy-to-follow instructions are included to help you create an effective home program.

This inspiring book shows how the team of mother, father, and baby can explore and discover together the joys of human mobility. From learning the simple but vital stage of crawling to the beginnings of the sophisticated skills of the gymnast, this athletic team is the one that's most important to baby.

- English, hardcover, 288 pages (0208)
- English, softcover, (0209)
- Russian softcover (0209-RU)
- Spanish, softcover, (0209-SP)

#### How To Teach Your Baby To Be Physically Superb

DVD...Explains the basic stages of mobility development. Starting with a basic physical program for a newborn baby, Glenn and Douglas Doman show mother and father how to create a home environment that will enhance and improve their baby's crawling, creeping, and respiration, their toddler's walking and running, and their two- and threeyear-old's balance and coordination. Included are delightful demonstrations of each stage by children and their mothers and fathers. • 85 minutes (0818)

"The right to be physically superb is a birthright."

Glenn Doman

## Superb

#### How To Teach Your Baby To Swim

WITH MORE THAN 160 PHOTOGRAPHS, this book presents detailed instructions on all the core skills necessary to swim properly, including breath control, kicking, and submersion. All of these skills come together as you teach your baby to dive, float, and swim—both on and under the water.

- English, hardcover, 120 pages (0303)
- English, softcover (0304)

#### Waterproof Swimming Program Checklists

THE BOOK *How To Teach Your Baby To Swim* contains seven checklists. Each checklist summarizes the contents of the chapter and a specific swimming program. These checklists have been made into convenient-size plastic cards and are attached to a comfortable wristband that parents can wear in the water. Parents can use the card to remember all the activities for each swimming session. A Water Safety and Hygiene checklist is included.

#### their wonderful parents.

#### What To Do About Your Brain-Injured Child

"The true and touching story of the efforts of an obviously highly educated group of workers who believe thoroughly in what they are doing... and have unquestionably helped many children and their families."

Louise B. Ames, The Gesell Institute For Child Development

#### IN THIS BREAKTHROUGH BOOK, GLENN DOMAN-

pioneer in the treatment of the mentally retarded, mentally deficient, cerebral-palsied, epileptic, autistic, athetoid, hyperactive, attention deficit disordered, developmentally delayed, and children with Down syndrome-brings hope to thousands of children, some of whom are inoperable, and many of whom have been given up for lost and sentenced to a life of institutional confinement. Based upon the decades of successful work performed at The Institutes for the Achievement of Human Potential<sup>®</sup>, the book explains why old theories and techniques fail, and why the philosophy and revolutionary treatment of The Institutes succeed.

"Parents are not the problem. Parents are the answer." Glenn Doman

In this book, the author discusses the staff's lifesaving techniques, as well as the tools they use to measure and ultimately improve visual, auditory, tactile, mobility, language, and manual development. Glenn Doman explains the unique methods of treatment that are constantly being improved and expanded. He then describes the program that enables parents

to treat their own children at home in a familiar and loving environment. Included throughout are case histories, drawings, charts, and diagrams.

Twenty thousand families from over a hundred nations have brought their children to The Institutes. The great majority of these children have done better than their parents had hoped, when measured against their prior experience with conventional methods. For each of these families, this book was the starting point.

Children of Dreams,

ildren o

Dr. Raymundo Veras

#### The Pathway To Wellness

THE PATHWAY TO WELLNESS helps parents and professionals who seek answers to the problems facing their brain-injured child. The Pathway outlines what you need to know, what to do, and what not to do in the areas of movement, intelligence, communication, social growth, nutrition, water and liquid balance, environmental factors, and medication and surgery. This powerful Pathway provides parents with the tools to really help their brain-injured child.

#### Children of Dreams, Children of Hope

By Dr. Raymundo Veras

THIS IS THE STORY of Dr. Raymundo Veras, a brilliant Brazilian surgeon, and his journey into the world of brain-injured children. After his son was injured in a diving accident, Dr. Veras dedicated his life to fixing his son's injury. That led him to The Institutes for the Achievement of Human Potential\* in Philadelphia, where he learned

from Glenn Doman<sup>\*</sup> and the staff how to help brain-injured children. He returned to Brazil and began treating many more children, including those with Down syndrome for the first time. This book is the story of Dr. Veras's second life and the first chance for wellness for many of the world's hurt children. (0274)

## **Needs Children**

#### Give Me My Voice

#### Give Me My Voice

#### Poems Written by Brain-Injured Children

#### Edited by Janet Gauger

This anthology contains poems written by thirty children on The Institutes program. These children are able to express their thoughts eloquently and poetically. This beautiful book will astound and touch all who read it.

• English, softcover, 68 pages (0280)

#### The IN-REPORT

The IN-REPORT serves to record and publish the victories of brain-injured children. The accomplishments of brain-injured children who have graduated and the achievements of well children are also covered. The IN-REPORT

keeps parents everywhere in touch with new programs, books, materials, events, and people connected with the work of The Institutes for the Achievement of Human Potential\*. Regular reports, special features, staff biographies, and columns by staff members provide invaluable information.

- · Published in English, twice yearly
- Two-color, with a four-color cover; 48 pages. Available by annual subscription of two issues:
- To USA (IR-US)
- To Canada & Mexico (IR-CM)
- To other countries (IR-INT)

Mass Instruction

#### Courses for Parents presented by

#### How To Multiply Your Baby's Intelligence<sup>®</sup> Start Your Child on

the Road to Success

"The best investment I will ever make for my daughter." Physician, Paris, France

*How To Multiply Your Baby's Intelligence* is a comprehensive course designed to provide mothers and fathers with the essential information they need to create an enriched home environment and to significantly increase the intellectual, physical, and social abilities of their children.

#### Parents Are The Best Teachers

You are the best and most beloved teacher your child will ever have. When parents understand how easy it is to teach their baby, and how important it is to the baby's well-being, the whole family becomes closer and happier.

#### What Parents Say

"My son is 14 months old and he is learning how to read and do math. I can't tell you how pleased I am." Mother, Florida

"Thank you for teaching us how to allow our children to be their best." Mother, Pennsylvania

#### Children Can Learn Anything

Children would rather learn than do anything else. They want to learn everything, and they want to learn right now. Mothers and fathers learn how to teach in a joyous and relaxed way.

TO ENROLL, contact The Institutes<sup>\*</sup> at (800) 344-6684 or (215) 233-2050, or e-mail htm\_registrar@iahp.org.

#### What You Will Learn

Reading Learn how to teach your baby to read and joyously give your baby the gift of literacy.

Encyclopedic Knowledge Shouldn't our children know the birds and the insects in their own backyard, or enjoy the beauty of a van Gogh?

• Math Babies love learning about the language of mathematics, because they are natural mathematicians.

Physical Ability & Nutrition Physical and physiological excellence are key to all aspects of development throughout life.

Music & Foreign Language Learn how Bach, Beethoven, and Mozart can be your baby's first music teachers. Learn how you can help your child to be bilingual, even if you are not!

www.gentlerevolution.com

#### The Institutes for the Achievement of Human Potential<sup>®</sup>

What To Do About Your Brain-Injured Child is a comprehensive course that provides parents with vital information on how to significantly increase their child's mobility, intelligence, and social growth, and to improve their health and physical growth.

#### Parents Are The Best Therapists

The Institutes strongly believes that children do best at home with their mothers and fathers. When parents know how to provide an ideal environment for brain growth, they are the best teachers for their child and can achieve significant results.

#### What Parents Say

"I learned incredible information on how to grow my son's brain to give him a good chance at a rich, fulfilling life." Father, Canada

"The course was even better than I expected. This was one of the best weeks of my life, because I'm now equipped with the knowledge to make my son well." Mother, USA

#### Is Your Child A Candidate?

Children may have been diagnosed with cerebral palsy, autism, Down syndrome, developmental delay, attention deficit disorder, hyperactivity, or learning problems. The Institutes treats the full spectrum of children–from those who are blind, deaf, paralyzed, insensate, and speechless to those who have learning problems.

**TO ENROLL,** contact The Institutes at (215) 233-2050 or (800) 736-4663, or email wtd\_registrar@iahp.org.

#### What You Will Learn

About the Brain Learn what brain injury is, what causes it, and the range of brain injury. Understand how the brain grows and how it can be stimulated to grow faster.

About Evaluation Learn how to evaluate your child in the six critical areas of human function, resulting in a clear, functional developmental profile.

About Mobility Mobility is essential to all aspects of brain growth. Parents learn how to create the ideal mobility program for their child.

About Physiology Understand why children have chronic illness and problems with eating, sleeping, breathing, allergies, seizures, or behavior. How to solve these problems is a vital part of the course.

About Intelligence Children have enormous intellectual potential. Parents learn how to teach effectively and how to learn side-by-side with their child.
