Wood-Mizer Introduces SUPER70 – Most Productive Portable Sawmill

Leading sawmill company releases LT70 Super Hydraulic portable sawmill

Indianapolis, IN – [Wood-Mizer LLC](#), the world's leading sawmill manufacturer, introduces the [LT70 Super Hydraulic](#) sawmill – a mill that allows zero to sawing in ten seconds! Engineered to saw logs faster than ever, the SUPER70 will join Wood-Mizer's industry leading line of portable sawmill equipment.

Combining the rugged power of a 55HP diesel engine with the functionality of engine-powered hydraulics, fully-proportional joystick controls, and an enhanced operator interface, the SUPER70 is faster than ever- all at your fingertips. The compact and efficient hydraulic system integrates directly into the engine's power for the ability to withstand rugged and mobile environments, even in harsh, below zero climates. Serious sawyers will also benefit from an increased production rating of up to 1,050 board feet per hour.

The Wood-Mizer LT70 Super Hydraulic portable sawmill offers high production sawing faster than ever before.

To demonstrate the increased production speed of the SUPER70, Wood-Mizer Service Technician Nick Burdine proved the ability to load, clamp, and begin sawing in under ten seconds at the 2014 Paul Bunyan Show in Ohio. John Robertson, Wood-Mizer's head sawyer and owner of Lumber Worx – a custom sawing operation in Indiana, described the new sawmill as "extremely fast and productive".

Main Features

- Engine-powered hydraulic system for peak performance
- 40% faster head positioning and up to 50% faster bed functions
- Increased 1,050 board feet per hour production rating
- Enhanced operator interface for optimal control
- 55HP diesel power

"Wood-Mizer has always been committed to constant innovation to provide the most advanced and reliable sawmills on the market," said Wood-Mizer National Sales Manager Dave Mann. "The SUPER70 continues this dedication by offering powerful sawing faster than ever to meet the demands of portable and high production sawyers around the world."
