Why Medical Alerts?

1 OUT OF 3
adults age 65 and older
FALL EACH YEAR

And

ALMOST 50%
of adults age 80 and older
FALL EACH YEAR

Almost 50% of non-injured fallers
CANNOT GET UP WITHOUT HELP

2,200,000

fall injuries among older adults are
treated in hospitals each year

46% OF FALLS OCCUR
OUTSIDE
the area surrounding the home

LifeBeacon™ makes it possible to **Go Anywhere™** !

1. **FreeRoam™ Technology** - The ability to use the LifeBeacon™ wherever you are and wherever you go
2. **Two Way Voice** - Talk and listen to medical monitoring operators directly from your LifeBeacon™
3. **InstaLink** - Press the button and summon help in seconds, not minutes
4. **GPS** - LifeBeacon™ communicates with satellites to locate you in an emergency and then informs responders of your location
5. **InstAlert** - LifeBeacon™ notifies loved ones immediately of your need for help along with a map link of your location
6. **Extended Battery Life** - LifeBeacon™ will last up to 2 days before needing to be recharged
7. **Convenient Recharging** - Set LifeBeacon™ in the included and simple cradle charger when it is time to recharge
8. **Audible Notifications** - LifeBeacon™ will let you know when you've activated it, when to recharge it and more
9. **Practicality** - The LifeBeacon™ is lightweight yet rugged, and can be worn as a wristwatch or a pendant
10. **Simplicity** - Set up is easy. Press one button, LifeBeacon™ does the rest
