Softech, Inc. selects Tesia as exclusive clearinghouse partner

Indianapolis, IN (February 1, 2015) - Tesia Clearinghouse, LLC (Tesia) and Softech, Inc. (Softech) have entered into a long-term agreement whereby Tesia will provide Softech's clients a full suite of electronic transactions, including electronic claims processing and patient statement processing services.

Tesia is the largest processor of real-time dental claims in the U.S. and working with leading insurance companies to expand this service to include real-time payments. "We have an outstanding opportunity through our partnership with Softech to offer providers a completely integrated EDI solution. I commend Ray Kaminski, President of Softech, Inc., on his vision and am truly excited to have Softech as a vendor partner." said Jay Baker, President Tesia.

Softech is one of the original dental software vendors in the industry and remains dedicated to providing the very best products and services available anywhere. DENTECH provided by Softech, Inc. continues to develop innovative software solutions and implement technology that enhances patient care and builds strong, thriving dental practices throughout the country. "We entered into this relationship with a focus on the future. Batch claims and electronic patient statements are now and are critical first steps in the process, but it's what we're going to accomplish together over the next 2 – 4 years, that really has us excited about this partnership. Renaissance Electronic Services is a development shop and as a partner, Dentech offices will have early-adaptor integrated access to innovative new services, including Real-Time Payments as they are released." said Ray Kaminski, Present Softech, Inc.
