

THE BEST MATTRESS IN AMERICA
IS MADE IN ITALY

SLEEP IS LIFE'S GREATEST PLEASURE.

VIRTUOSO

THE FINEST QUALITY MATERIALS FOR THE PERFECT NIGHT'S SLEEP

HORSEHAIR

Horsehair is a fiber that has been used since antiquity to stuff beds and mattresses due to its incredible resilience and elasticity. Horsehair does not lose its natural flexibility and rapidly regains its original shape, ensuring the same degree of comfort over time. Thanks to its hygroscopic qualities, the fibre absorbs moisture and ensures that the body remains cool and dry.

CASHMERE

Cashmere creates a great layer of insulation to regulate sleeping temperature all through the night.

MERINO WOOL

Merino wool is shorn from the best breeds of sheep and is one of the highest quality natural fibers. Extremely fine and soft to the touch, it has heat regulating properties and excellent breathability which leaves the skin free to breathe.

CAMELHAIR

Camelhair is a natural fiber with great hygroscopic properties. It absorbs the moisture released by the body plus helps it to evaporate, keeping a dry and pleasant mattress surface.

SILK

Throughout history silk has been known as the strongest and most luxurious natural fiber. Silk's inherent elasticity allows it to remain soft and comfortable for a long, long time.

COTTON

Cotton has long been noted for its breathability and its ability to remove excess moisture, creating an improved sleep environment.

LINEN

For centuries linen has been used to create a cool and fresh environment, the perfect conditions for a great night's sleep.

MEMOFORM HD

Memoform HD is an innovative, high density visco-elastic foam which is extremely supportive. This feature ensures that the foam has a greater capacity to mold itself to the contours of the body, providing unrivaled comfort and ensuring better postural alignment.

MAGNIFOAM BREEZE

Magnifoam Breeze is a specially designed material which is breathable, extremely tough and crushproof over time. It is available in the Eliosoft version, providing soft support, and the Elioform version, providing firm support. The material is enriched with eucalyptus extract to improve the sensation of wellbeing and keep the body feeling cool.

MALLOW FOAM

Magniflex's unique formula using extract from the Mallow plant provides a soft comfort, relieving pressure to sensitive points on the body. The Mallow plant is also noted for anti-inflammatory, calming and soothing properties, creating the perfect environment for a restful night's sleep.
