

# Chinavasion announce they are selling the ZTE Blade S6 Android 5.0 Smartphone

*Wholesale Phone Suppliers Chinavasion are launching their first Android 5.0 Smartphone, the ZTE Blade S6.*

PR Manager at Chinavasion, Ms. Rose Li said, "Chinavasion is very excited to be working with ZTE and can now confirm that the Blade S6 should be available to order from our website on the 11<sup>th</sup> of February."

Rose Li added, "The Chinese handset maker ZTE announced last month that the Blade S6 is the world's first Qualcomm Snapdragon 615 octa core Smartphone that comes with Android 5.0 out of the box. "

With 4G connectivity, a Qualcomm MSM8939 64 Bit octa core processor and 2GB RAM, this Android 5.0 phone from ZTE marks a new milestone in China wholesale company Chinavasion's history.

Ms. Rose Li says, "We are always looking to improve the range and diversity of our products and by working with leading manufactures like ZTE we're able to do that. The Blade S6 is a fantastic Smartphone and we are working hard to try and bring more of these high end Android 5 phones to the market."

The [ZTE Blade S6](#) is expected to retail for around \$250 and was officially launched at the end of January

Ms Li says, "With the Blade S6 ZTE shows its ability to offer a premium Smartphone on par with the world's leading brands and thanks to Chinavasion it's now available to everyone at an affordable price".

The 64 bit octa core processor should complement the Android 5.0 operating system and Rose Li stated, "With Android 5.0 being more efficient and effective than Android 4.4, which was no slouch itself, this phone gives a highly impressive performance and is packed full of great

features that will surprise many people and win over new customers looking for the best quality at affordable prices.”

The Blade S6 from ZTE may be the first big name Chinese branded Android 5.0 phone but Ms. Rose Li says, “This is just the first of many devices and shows a rapidly growing trend of how [Chinese branded phone](#) can compete with the big name brands of both quality and value which is why we expect to see huge growth in the market over the course of 2015”

[China wholesale company](#) Chinavasion sells Chinese manufactured electronics at wholesale prices with no minimum order quantities so resellers and individuals alike can buy at wholesale prices whether buying 1 or 1000 items.
