TrackSaver

Brings YouTube to your desktop

One button — to rule them all

Forget all the sophisticated settings
and fine-tuning plugins and addons.

TrackSaver is easy to install
and works on all browsers.

Install in Chrome? Piece of cake!

We have mastered the Force. Thus, **TrackSaver** works even where ordinary software fails.

No more copy-paste

Sick of copying URLs and pasting them to an app or web service to download a video?

Relax. Just click **⌄ Download** under a video in YouTube.

Once and for all

Want to update or switch to another browser?

Don't worry, the **TrackSaver** button will stay. It's simply future tech.
