

Quicklaunch

Enabling the Future of Productivity

Anywhere & Everywhere

Audio–Video–Content–Collaboration

Quicklaunch™ for Microsoft® Lync® is an easy to use 'one-click'/'one-touch' application to **Join Meetings, Start Applications, Access Data, Play Media, showcase your organization's Business Intelligence assets** and more.

The application is customizable and is designed to work with your existing equipment or with our custom UC Workspace Solutions. All you need is a camera, PC and display to get started. Quicklaunch integrates with your existing Exchange and Lync environments (and the upcoming Skype for Business) to extend your enterprise experience.

With Quicklaunch your meeting space is always ready to join or create meetings with a simple touch. Quicklaunch was designed to move beyond simple join and adds features. It brings multiple technologies into a variety of environments including Lync Room Systems.

Extended Enterprise One-Touch Experience

Easy–Interactive–Touch–Pen–Intelligent

Quicklaunch was designed for organizations that are looking to provide an intuitive, rich collaborative experience across a spectrum of devices and locations. Quicklaunch is available across our portfolio of UC Workspace Solutions.

Leading the Collaboration Revolution

Quicklaunch is intuitive

and easy to use. One-click/one-touch is all you need to start a meeting. Utilize your existing Lync, Exchange and Office365 meeting rooms with Quicklaunch—just book a Lync meeting in Outlook, choose your resource, invite participants and when it is time to begin, go to the meeting room and touch or click Join Meeting on the display. If it is setup for an individual work space no need to select the meeting room.

customizable
adaptable

to fit your organization's needs in any environment and our application development team is available for custom solutions. as an annual subscription or enterprise license to meet your unique environment.

The screenshot shows the Quicklaunch interface for a meeting room. At the top left is the logo 'iLUMINARTECH'. The main area displays a calendar for Friday, January 30, 2015, with a 'Join Meeting' button for a meeting at 10:00 AM with Angela Hlavka. A sidebar on the right contains various quick-launch buttons: Meet Now, Place Voice Call, Start New Whiteboard, Start OneNote, Access Outlook Online, Access OneDrive Online, BI Dash Board, Shared Media Player, Reset Room, and Show Desktop. At the bottom, there is a toolbar with icons for Meet Now, Phone, Whiteboard, OneNote, Outlook, OneDrive, BI, Reset Room, and Calendar. A user profile for Jack Stephenson is visible in the bottom right corner.
