SOLAR + SUSTAINABILITY

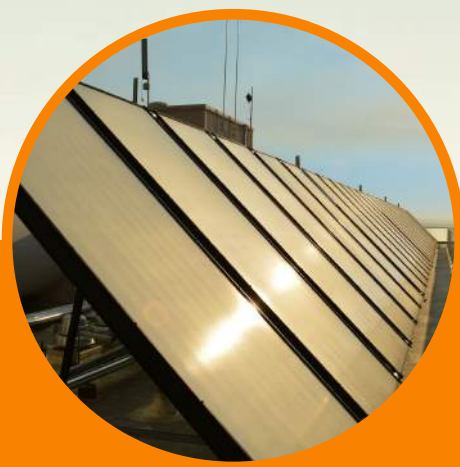

CA Lic. No. 978353

DESIGN | FINANCE | INSTALL

DESIGN

We work closely with your design team to seamlessly integrate the solar water heating systems and solar PV systems into your design.

FINANCE

We have financed hundreds of projects around the country. From homes to multi-family apartments, and schools to large commercial jobs.

INSTALL

We install high-quality, cost-effective solar water heating and solar electric systems for retrofits and new construction projects.

Promise Energy is a full-service solar solutions provider, delivering integrated design, finance and installation for multifamily and commercial projects.

Experience:

- + Financed Hundreds of Residential Projects
- + Over 612 Solar Projects to Date
- + Over 3,078 Households Served
- + LEED Platinum and Net Zero Solar Design

Expertise:

- + Urban Sustainability Practices
- + Design, Engineering and Permitting
- + Tax Credits, Rebates & Incentives
- + Energy Efficiency Codes and Standards
